THE PRESBYTERIANS.

The Old School General Assembly.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, May 27.—In the Old School Presbyterian Assembly to-day the Committee of Church Union made a report.

The reunion is to be under the style of the Presbyterian Church of the United States, on a doctrinal and ecclesiastical basis, the Old and New Testaments to be acknowledged as the inspired Word of God and the only infallible rule of faith and practice. The Confession of Faith is to be adopted as the system of doctrine and discipline of the church and shall be approved as containing the principles and rules of policy. The basis of reunion is to be submitted to the several Presbyteries and their votes thereupon shall be sent to the next meeting of the two General Assemblies to be held in Pittsburgh the second Wednesday of next November. If two-thirds then be found favorable, then the two Assemblies shall act accordingly, consolidate committees and take other necessary action for the interest of the Church.

The second Sunday in September is recommended as a day of prayer for the whole denomination.

A concurrent declaration was also reported, which gives all the ministers and churches the same standing in the United body as now, and says all imperfectly organized churches must become thoroughly Presbyterian within five years. The boundaries of Presbyteries are to be adjusted by the United, General Assembly. The official records of the two branches are to be preserved but no rule or precedent shall be of authority unless approved by both bodies, or established by the united body, unless it affects the rights of property. The corporate rights of the two Assemblies are to be consolidated as far as practicable and the several Committees and Boards consolidated impartially. The Board of Publication of the United Churches, to revise editions so as to exclude invidious reflection. The Theological Seminaries now under Assembly control may be transferred to the care of one or more adjacent synods, and it shall be the duty of all judicatories, ministers and people of the united church to preserve peace, and, as far as is consistent with the convictions of duty, conform practice to the general custom of the church prior to the controversies which resulted in separation.

The report was accepted, and addresses made by Rev. Dr. Musgrave, Rev. Wm. Plumley, Rev. Dr. Spring and Rev. Dr. Skinner, of Fort Wayne, in favor of its adoption.

At the afternoon session, Rev. Dr. Samuel Miller, while in favor of reunion, objected to some features of the basis, such as admission of Congregational churches to representation, and a portion of the declaration in regard to the Board of Publication, who would publish nothing contrary to the standard of the Presbyterian Church.

Judge Kennedy spoke in favor of reunion, and was followed by Henry Day, Secretary of the Committee of Conference, in advocacy of the report, which he said was the last document upon the subject that would be presented.

New School General Assembly.

In the New School Assembly, the Committee on the Report of Delegates to the Scotch and Irish Churches made a report, endorsing the suggestions contained therein, especially in relation to the maintenance of closer correspondence and more friendly relations with sister churches in the British Isles.

A resolution proposing some Liturgical changes, which formed part of the report, was put aside for future consideration.

The Mileage Committee recommended such delegates as were entitled to receive travelling expenses be paid in full at once. Adopted.

The report on reunion was then submitted. Its discussion was at once entered upon, Judge Strong, Rev. Dr. Fisher and others speaking in favor of its adoption. the feeling of the Assembly being evidently in favor of the report.

At the afternoon session, Rev. Dr. Heacock, Rev. Dr. Sunderland and others spoke on the same side.

McConnell Homicide Trial at Jacksonville, Ill.

The trial of William Robinson, at Jacksonville, Illinois, for the murder of Gen. McConnell, proceeded yesterday. A domestic testified to having heard a heavy fall, then light foot steps, and going into the General's office found him on his face and hands on the floor, with a pool of blood about his head. A son of deceased testified that during May, 1867, he made for his father a list of his notes, the date when due, and upon whom. Among those notes was one on Robinson, the prisoner, for $420, due on demand, which note had been in deceased's possession until just before the murder, and cannot now be found, although all the other notes on the list were found undisturbed in a drawer in the office. There was found upon deceased's table a broken pencil and Juliet's interest tables, open at pages 112 and 113, the former containing a calculation of the interest on $400, and the other of the interest on $500, and a pencil mark upon the former page opposite the amount of $400. An examination of the bank account does not show a payment of the $300 on December 10th, when Robinson claims to have paid off his note, but a payment of $300 by one Elliott is entered as having been made on the 10th of December, which was never made to Murray McConnell in person, but to George, and by him to his father, at a date prior to that of the entry.

—A case of body snatching has just occurred at Williamson, Wayne county, New York. Stephen Burton, a respectable citizen, died on Wednesday of last week, from an overdose of chloroform, and was buried on Friday following. It was suspected that his grave had been violated, and the tomb was examined. The body had been dragged out of the coffin, mutilated and concealed in the woods. Dr. Bront, of Ontario, has been arrested, with two students, and held to answer for the crime.

—It is stated that Minister Thornton informed Secretary Fish yesterday that the steamer Quaker City was the property of British subjects; was destined for Jamaica and not Cuba, and there was no reason why her clearance should not be granted. The Secretary conferred with Secretary Boutwell, and the two agreed that it would be the best to let her sail, but in the meantime information was received that she had been libelled by the Spanish consul and seized. It was then decided to let the matter be judicially settled by the courts.

—At the New England Woman's Suffrage Convention, Boston, Wednesday evening, a resolution was adopted instructing the Executive Committee to take measures for the organization of a National Woman's Suffrage Association. Addresses were made by Julia Ward Howe, William Lloyd Garrison, Lucy Stone, Mrs. Livermore, Mrs. Whiting, and Mr. Griswold, chairman of the Legislative Committee, who reported in favor of female suffrage. The Convention then adjourned.

SECOND EDITION.

FOUR O'CLOCK, A. M.

THE CAPITAL.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, D. C. May 27, 1869.

APPOINTMENTS.

The President has appointed Saml. H. Styrnes as Consul at Sturich.

The following Postmasters have been appointed: S. P. Drake, Portsmouth, O.; Wm. H. Loudewell, Cumberland, Md.; A. H. Reed, Marshall, Mich.; John Chandler, Coldwater, Mich; Jas. M. Reed, Steubenuille, O.; L. M. Cox, Thorton, Indiana.

Uriah Bruner has been appointed Receiver of Public Moneys at West Point, Nebraska; Jno. Meanshaw, Supervising Inspector of Steamboats, for Third District; George Moore, Collector of Internal Revenue for Tenth District, Ind; Newton Cooper, Collector of Internal Revenue, West Virginia.

AN INTERVIEW.

The Indian Commission, now here, accompanied by the Secretary of the Interior and Commissioner Parker, had an interview with the President to-day.

The Commission has passed resolutions declaring it expedient for its members to recommend persons for appointment in the Indian Department. Messrs. Stuart, Farwell, Dodge and Campbell were appointed a committee to cooperate with Government officers in the purchase of goods and supplies for the Department. The Board resolved to divide into three commissions for the purpose of visiting the Indians, viz: Northwestern division—Messrs. Welch, Farwell and Toby; Western division—Messrs. Campbell, Stuart and Hall; Southern division—Messrs. Brunot, Bishop and Dodge.

THE CENSUS COMMITTEE.

General Garfield, of the Census Sub-Committee, arrived to-day. The Committee will be in session several weeks, preparing forms for the next census, which will include mining and the condition of freedmen in connection with industries, acreage and crops. The bill and tables will be ready for Congress soon after the commencement of the next session.

REVENUE RECEIPTS.

The Internal Revenue receipts for the month, to date, were $16,762,396: Custom receipts from the 18th to 22d, inclusive, were $2,673,451.

FROM CUBA.

Dispatches from Admiral Hoff to the 19th inst. contain no intelligence concerning the progress of the Cuban insurrection.

Election in Tennessee.

[By Telegraph to the Pittsburgh Gazette.]

MEMPHIS, May 27.—An election for Judges of Supreme and other Courts took place to-day. The Republican nominees for the Supreme Court had no egular opposition, and are undoubtedly elected. The election for Chancellor, in this district, results in the choice of East, moderate Republican, over Rexford and Brien, Radicals. The returns are not all in, but Rexford's friends concede East's election by several hundred majority. The vote in the city was very close between East and Rexford. Brien was scarcely known in the race.

A number of the most intelligent and influential Radicals of Northern birth supported East.

The Supreme Court at Brownsville, to-day, decided an important case, having a bearing on the franchise law. The Circuit Court of Weakly had decided that neither the Legislature nor the Governor had power to set aside the registrations made under the franchise law of 1866, and that all holding certificates under them are entitled to vote. The Commissioner of Registration appealed and the Supreme Court affirmed the decision of the Circuit Court. This will largely increase the number of voters.

—In the House of Assembly of Halifax, N. S., a preamble was introduced by Mr. Murray, of Pectou, which speaks of the forcible change of the Constitution of Nova Scotia without the consent of the people and in opposition to their wishes. It says even inquiry into their grievances has been refused, and they now occupy the position of degraded people, and that the union has resulted in financial disaster and oppression, and that their principal commercial trade has been and always will be naturally with the United States. Therefore, believing the Imperial Parliament has been imposed on by false representations, and that the free people of the British Isles will not persist in keeping this heretofore loyal colony in a hated Union, resolved, that an humble address be presented to the Queen, asking the restoration of our beloved institutions, or to be absolved from allegiance to the British Throne, and enabled as free people to adopt political institutions we deem most conducive to our happiness and properity. Mr. Vail said he considered it an annexation resolution, which Mr. Murray denied. Monday next is assigned for its consideration.

—The St. Louis *Democrat* has a letter from Sheridan, Kansas, giving an account of the murder of three men by Cheyenne Indians, about a month ago. It appears that four young men, named R. L. Smith, of Cincinnati, J. W. Shryock, of Pennsylvania, W. Head, of Williamsport, and J. G. Doran, of Steubenville, Ohio, went to Sheridan early in the spring, and started on a trip to New Mexico about the 15th of April. On the 1st of May, when near Antelope Hills, on the border of the Indian Territory, they were attacked by twenty Cheyennes and the three first named young men killed. Doran then surrendered, and while in the camp of the Indians that night drugged some brandy he had with him with opium, which the Indians drank, and when they were stupefied he escaped and reached Sheridan on the 18th inst., whence he he left for the East.

—At a meeting of the New England Anti-Slavery Society, at Boston, Wendell Phillips offered resolutions and made a speech enunciative of his peculiar views, and was followed by several others in support of the resolutions. The attendance was small

NEWS BY CABLE.

[By Telegraph to the Pittsburgh Gazette.]

GREAT BRITAIN.

LONDON, May 27.—The Alabama claims still form the great theme of conversation and newspaper comments. The *Times* to-day has an article on the communications of Sir Francis Head, which have recently been published here, respecting the case of the ship Caroline and the course of the United States towards Canada during the patriot war. The *Times* says Senator Sumner's assertion of English hostility to America is met by the testimony of American officials. Abuses much more flagrant occurred within the frontier of the United States, for the popular feeling of the State of New York was admitted to have more than countenanced the Fenian expedition to Canada. The American press expose Mr. Sumner's inconsistency by historical tests, and point out his perversion of facts.

The Messrs. Laird, of Birkenhead, who built the Alabama, have recently published a letter giving legal opinions of extracts from documents and speeches to prove that the building of the Alabama was not illegal. This letter has been extensively copied, and thus commented on by the papers to-day.

A Most Startling Tragedy—Husband Killed by a Wife.

At Rockford, Illinois, on Wednesday, a woman named Dixon shot and killed her husband, Banks J. Dixon, under the following circumstances: Dixon and his wife had lived unhappily together for some time, when finally, from real or imaginary causes, she left him, going to her father's house in the country. She returned a short time since, stopping at the house of a friend, and was confined with child. The husband made frequent attempts to see her after this event, for the purpose, it is supposed, to gain possession of the child. It was finally arranged that he should visit her on a certain day, which was Wednesday. While in the chamber with his wife, and standing by the bedside with the babe in his arms, his back toward the bed, his wife, who had appeared perfectly calm, without emotion or excitement, suddenly rose, and drawing forth a concealed revolver fired two shots, one of which passed entirely through his body, passing near the region of the heart, causing death in about half an hour.

—The Lawrence (Kansas) *Tribune* says on Friday night, of last week, two settlers on Coxie's Creek, Neutral Lands, were hanged by leaguers, another shot and several others warned to leave. Considerable numbers of the settlers not in sympathy with the leaguer were going to Fort Scott for protection, and others are leaving the State. It is said there are nearly three thousand well armed and organized men in hostility to Mr. Joy. Protection will soon be given to the railroad engineers, and the lawless men in that region will have to leave the country or suffer the penalty of their acts.

—Three Japanese families have arrived at San Francisco under the auspices of a Prussian named Schnell, an old resident of Japan, and driven therefrom in consequence of the defeat of the Northern Princes. Thirty-seven more families are also on the way, and eighty additional intend coming, making a total of one hundred and twenty families, who propose settling permanantly in California to cultivate silk, tea, &c. They bring many mulberry trees, tea and bamboo plants, and intend purchasing Government land for immediate cultivation. It is not improbable several Northern Princes will also come and bring many more industrious families.

—The Grand Jury of the Bibb County (Alabama) Superior Court has found a true bill against J. Clark Swayze, editor of a newspaper at Macon, for high misdemeanor. The bill is predicated upon an incendiary article appearing in his paper some weeks ago, and is based upon that section of the code that forbids any person to circulate any writing that inculcates resistance to lawful authority, insurrection or conspiracy against citizens. After the death of Dr. Ayres and a negro, near Savannah, Swayze published an inflammatory article calling on Union men to organize for self-protection. The penalty is imprisonment in the penitentiary from five twenty years.

—A stock train arrived at Worcester, Mass., on Tuesday from Albany, *en route* to Providence, loaded with Texas cattle, which were found to be in a horrible condition. Twenty-nine large bovines were found jammed in one car, two of which had apparently been dead for some time. Two others were dying. Others were down and unable to rise, while all were evidently starving, and had apparently been without food or water for several days. The cattle were unloaded, fed and exercised, and then put into fresh cars and sent off on their way.

CITY AND SUBURBAN.

American Protestant Episcopal Missionary Meeting.

Last night, at the Methodist Female College Chapel, Hancock street, now occupied as a place of worship by the St. Andrews' Episcopal Congregation, there was held a meeting of the American Protestant Episcopal Missionary Society. The attendance was small, not more than one hundred ladies and gentleman being present, but those who were there enjoyed a rare intellectual treat in the eloquent and forcible addresses delivered by distinguished strangers. The exercises were opened by an offering of the choir, after which the 104th hymn was rendered, all present joining in the vocal praise. An appeal to the Throne of Grace was made by Rev. Dr. John Preston, which was followed by another hymn. Rev. R. H. Newton, of Philadelphia, Secretary of the Protestant Episcopal Missionary Society, was then introduced to those present and delivered an able and argumentative address explanatory of the objects of the Society. His remarks were controversial in their character, yet neat, dignified and forcible. He dwelled at considerable length in making clear the right of members of the Episcopal church to enter into and aid this independent missionary auxiliary to the church, so needful especially at this time and in this land for spreading the Gospel of Christ, while Romanism was encroaching on the domain of the communion, and popular sentiment was drifting in the direction of that faith. By ingenious arguments he strove to prove the expediency of the organization, and disclaimed any idea of departing from the church in acting independent of the organizations of like character within her pale. The good the society will accomplish, the high object in view, and the capacity of all to help in the noble work, were prolific themes warmed into life by the earnest orator.

Rev. Dr. J. Cotten Smith, of New York, a member of the American Missionary Board, was next introduced and made a powerful address in favor of the Society and opposed to Romanism and the tendency to drift into its ranks observable in the High Churchmen and ritualists of the Episcopal Church. He was listened to with much attention, and his eloquent remarks made deep impression on his hearers.

After prayer and singing the meeting adjourned.

Iron Clad Buildings.

It appears this sort of structure is prohibited by our city ordinances, and that the law is to be enforced against buildings already erected. It may be right to enforce the law generally and wrong to enforce it universally. In other words, it may be altogether proper to make exceptions in particular cases, and we incline to the opinion that in the case of the shop erected by Hussey, Wells & Co., appurtenant to their steel works, there is a strong claim upon the favorable consideration of Councils. In reducing ingots of steel to the particular sizes desired, trip hammers must be employed, the concussion of which is so great as to shake the ground to a considerable distance around; from this cause and not to save expense, it has been found necessary to construct factories where such forces are employed, of heavy framework, covered on the sides and roof with iron, thus making them, as nearly as possible, proof against internal or external fires. Wooden roofs are not forbidden by law, and yet a brick house with a wooden roof is more liable to catch or transmit fire than would be a house with wooden walls and iron, slate or gravel roof. The iron-clad buildings, which have been doomed to be removed by law, are more nearly fire proof than thousands of shingle roofed buildings in the city. We see no objection to ironclads but their unsightly appearance, an objection that does not apply to manufacturing districts, where all the buildings are more or less unsightly. And, in the case of factories using trip-hammers, we suggest that the policy of the city should be to make concessions, on account of the mechanical necessities of the business. Hussey, Wells & Co. have been pioneers in the manufacture of copper and steel at Pittsburgh. They have contributed largely to the representation abroad of this manufacturing centre. They have built up vast establishments, employ large numbers of skilled and common laborers. It is in such men and such enterprises that any city should take pride, and to such every needful facility should be gladly accorded by the municipal authorities. And while it was doubtless wrong to erect the buildings without authority of Councils, would it not be wrong also—if the necessity for them is made clear—to withhold the consent of Councils now, when they are built?

Pickpocket Arrested.

Last evening about half past seven o'clock, a man giving his name as John Whipple, was detected in the act of picking the pocket of an elderly gentleman who had just seated himself in a car of the Fast Line Pennsylvania Railroad, bound for Philadelphia. The light fingered chap had secured the pocket-book of his victim, when officer Woolridge who had been on the watch, arrested and conveyed him to the lockup. A check was found upon him which called for a light valise at the St. Clair Hotel. The valise was procured but revealed nothing new as to the character of its owner. He had about twenty dollars in his possession when arrested in addition to that in the stolen pocket-book. There were two others, evidently accomplices, in company with him a short time before the arrest, but they escaped. His intended victim stopped in the city all night, and will appear against him at the hearing before the Mayor this morning.

A Remittance.

George Stevens, the party arrested on suspicion of being implicated in the robbery of Robinson's grocery store last week, is still in the Allegheny lock-up awaiting a hearing. He prefers remaining there to going to jail. The hearing comes off on Monday morning next at ten o'clock, to which time it was postponed at his own request. Yesterday he received from a friend in Chicago a remittance of three hundred dollars, and he now expresses himself ready for action. There is no clue to the others supposed to be implicated in the affair.

SYNODICAL PROCEEDINGS.

General Synod of the Reformed Presbyterian Church at Cedarville, Ohio.

SIXTH DAY—AFTERNOON SESSION.

Synod met at three o'clock and was opened with prayer by the Moderator, Rev. Mr. Harshaw.

Mr. J. M. Imbrie was added to the Committee on Union with the United Presbyterian Church.

The Treasurer of the Board of Domestic Missions read his report. Referred to the Auditing Committee.

The Secretary's report of the Board of Domestic Missions was read by James C. McMillar, Esq. It complained of a lack of probationers to meet the demands for preaching. Adopted,

The Treasurer of Domestic Missions was instructed not to include the names of the "suspensionists" among those of the Pittsburgh Presbytery, in the acknowledgment of moneys contributed to the work of Domestic Missions, and the Freedmen's Mission. They are to be credited as ministers, but not as members of the Presbytery.

A communication has been received from the teachers of the Freedmen's Mission, and a complimentary vote given to those engaged in the work.

Proceeded to the order of the day, the consideration of the report of the Special Committee on the matters pertaining to the Second Church, Philadelphia, and First Church, Allegheny. The report was adopted unanimously. (For the report in full see morning's proceedings.)

Took up the case of the Sabaranpur Presbytery, and entered upon the consideration of Dr. McLeod's paper, item by item.

The first resolution was adopted. The second was voted down.

Rev. Mr. Woodside, brother of one of the Missionaries in India, offered an amendment to the third resolution, which declares that the Sabaranpur Presbytery, by suspending relations, had seceded from the Synod and placed themselves beyond the jurisdiction of this court. No ties, however sacred, would allow him to sacrifice a principle. He was not ashamed of his vote given for the suspension of George H. Stuart, Esq. He was for punishing those who had permitted themselves to be misled by Mr. Stuart.

Dr. McLeod assented to all Mr. Woodside had said, but owing to the peculiarities of the case, he was for postponing the matter for a year.

Dr. McMaster thought delay would do no good. The Presbytery of Sabaranpur had suspended relations in August last, and affirmed their action in March. They have refused to represent Synod among the heathen. Can Synod do otherwise than declare that they have placed themselves beyond her restriction? Delay will not alter the facts. Then nothing can be gained.

Dr. Steele would like to make a difference between the missionaries who went out from them, and the converted heathen, in India.

Dr. S. B. W. McLeod thought Synod should except the names of the native missionaries.

Dr. Wilson's desire was there should be one year's delay. The difference between the Presbytery in India and those in this country was as great as between the poles.

Rev. A. G. Wylie believed the Synod should apply the same measure to the Presbytery of Sabaranpur that has been applied to the Philadelphia and Pittsburgh Presbyteries. As late as the month of March in this year they had reiterated the language used in August. Synod would lose in every way by delay. They might begin to think Synod was afraid to touch them, if the matter be delayed. There was no way by which a line of distinction could be drawn. All must be treated alike.

Mr. Woodside added a clause excepting native missionaries.

Mr. Wylie moved the middle part of the amendment be stricken out. Decided out of order.

The question on the amendment was decided. It was adopted as amended.

Rev. J. Alford and Mr. R. C. Miller obtained leave of absence.

An amendment was offered by Dr. McLeod excepting the native missionaries. Withdrawn, as it was acted on already.

The whole paper, as amended, was adopted.

Closed with prayer by Rev. S. Young.

Amusements.

OPERA HOUSE.—A large and extremely fashionable audience assembled at the Opera House, last evening, to see the Chapman Sisters, Blanch and Ella, in the amusing burlesque of "Alladin, or the Wonderful Scamp." The entertainment commenced with "Paul the Pet," with Ella in the title *role*, and concluded with "Alladin." To-night Blanch and Ella take a benefit, when "Ixion, or the Man at the Wheel," will be presented.

PITTSBURGH THEATRE.—"Ixion, or the Man at the Wheel," has been the attraction at the Pittsburgh Theatre during the past week. To-night Rook and Havis, the gentlemanly officer and door keeper, will take a benefit, on which occasion, in addition to the regular company, Dick Quilker, the champion clog dancer, and Master Willie, will appear. Rook and Havis are both deserving gentlemen, and we hope the benefit may be a substantial one.

Break Downs.

In our perambulations yesterday we discovered a number of vehicles broken down. A coal cart on Second avenue, near Ferry street; a coke wagon on Penn street, near the Fort Wayne railroad crossing, and another on Grant street, near Seventh avenue, each having an axle broken. This is the result of overloading the vehicles, and is not the only bad result, as there are hundreds of horses broken down and rendered unfit for service every year in consequence of being compelled to draw unreasonable loads.

Killed by Indians.—A telegraph dispatch elsewhere gives an account of the murder of three young men by the Indians, in the Indian Territory, on the first inst., who were on a trip to New Mexico. Their names are, J. W. Shryock and W. Head, of Pennsylyania, and R. L. Smith, of Cincinnati. J. G. Doran, of Steubenville, Ohio, was with the party, but surrendered to the Indians and subsequently made his escape.

LIKE A LAVEROCK IN THE LIFT.

BY JEAN INGELOW.

It's we two, it's we two, it's we two for aye,
All the world and we two; and Heaven be our stay.
Like a laverock in the lift, sing, O bonny bride!
All the world was Adam once, with Eve by his side.

What's the world, my lass, my love!—what can it do?
I am thine and thou art mine; life is sweet and new.
If the world have missed the mark, let it stand by,
For we two have gotten leave, and once more we'll try.

Like a laverock in the lift, sing, O bonny bride,
It's we two, it's we two, happy side by side.
Take a kiss from me thy man; now the song begins;
"All is made afresh for us, and the brave heart wins."

When the darker days come, and no sun will shine,
Thou shalt dry my tears, lass, and I'll dry thine.
It's we two, it's we two, while the world's away,
Sitting by the golden sheaves on our wedding-day.

PENNSYLVANIA.

THE literary societies of the College at Washington are to take a prominent part in the ceremonies on Decoration Day.

WM. H. HASLETT, ESQ., has ceased the publication of the Butler *Press*, and has transferred his subscription list to the *Citizen*, edited by John H. Negley, Esq.

A SMALL CHILD in Northampton county is distinguished by having its grandmothers grandfather yet alive and hearty in the person of Mr. Peter Frutchy, a hale old gentleman of 93.

WE learn that a little daughter of T. B. Thompson, of Greenwood township, Perry county, aged about 18 months, was drowned by falling into a tub of water, last Friday. Efforts to resuscitate it proved unavailing.

WE think that, without a single exception, the Republican press of this State speaks in the highest terms of Judge Williams and favor his nomination as a candidate for the seat on the bench which he at present so ably fills.

THE Kittanning *Free Press* says: We learn that on Wednesday last the mother of G. W. Cook, Esq., received a frightful fall near the saw mill of Messrs. Cook & Henry, in East Franklin township. Although seriously injured, she is now in a fair way of recovery.

FRANK HAMBURG, a resident of Chambersburg, who was engaged at work upon the Katalysine Hotel, near Gettysburg, fell from the cupola to the roof of the main building, on the 14th inst., and injured himself so severely, internally, that he is not expected to recover.

THE Washington *Reporter* says: Walter Denny, Esq., of Hopewell township, had a flock of thirty-eight sheep worried by dogs last week. Ten were killed and all the rest were more or less torn. The result has been that a general slaughter of the canines has been going on in that neighborhood ever since.

ON Sunday, the 23d inst., the Rev. John N. C. Grier preached his farewell sermon at the Brandywine Manor Church, of which he has been pastor for fifty-four years and seven months. He succeeded his father who was a chaplain during the revolutionary war, but was for twenty-seven years pastor of the same church.

LAST Thursday night B. Reiker's store in Washington, was entered and two or three hundred dollars worth of clothing stolen. The burglars then entered Mr. N. Flainer's store, blew open the safe, and took forty dollars in money and a number of valuable papers, besides several hundred dollars worth of cutlery from the store.

ON Wednesday morning last, just previous to the shower of rain, that fell between six and seven o'clock, the atmosphere in this vicinity was filled with minute particles, resembling in every respect, *ashes*. The phenomenon was witnessed by many of our citizens, and we learn by quite a number in the neighboring township.

THE Doylestown *Democrat* says: There is considerable excitement pervading the staid village of Sumneytown, over our Montgomery border, which has its origin in the discovery that Samuel Fitch has made of oil of a very superior quality, on his farm near by. He has tested it, and it burns equal to the best produced in the far famed valleys of Venango.

THE Town Council of Washington have rejected the offer made by Dr. LeMoyne, to contribute ten thousand dollars for the purpose of placing a reading room and public library in the Town Hall. The rejection by the Council was based upon the fact that the contribution was coupled with certain conditions, one of which was that a fire proof room or vault should be placed in the building. This they thought would be too expensive.

ON Friday night last, a young child of John Glenn, of West Chester, about four months old, choked to death by getting a rubber nipple from a milk bottle down its throat. It was taking milk from the bottle, and as soon as the rubber came off, Mr. Glenn observed it, and attempted to get it out, but the more he tried to remove it, the further down it went; he then hurried off for a physician, but before assistance arrived, the little thing was a corpse.

THE Washington *Reporter* says: Quite an excitement was created in Claysville and vicinity a short time ago by the discovery of an amount of female clothing, concealed between two wheat stacks, on what was known as the "old Gourley Farm." The dress was cut across the breast, and blood spattered over it. The bonnet was dabbled with blood, and spots and stains of the same were found on most of the other clothing. The dress was very much torn, one of the sleeves being entirely gone, and the other garments bore traces of violence. The clothes were recognized as belonging to a girl by the name of Davis, who has been missing for some time past. She was last seen in Claysville on Friday week, but up to the time of writing no trace of her has been discovered.

MR. C. M. GUILD has presented to the Middlesex Mechanics' Association, at Lowell, Massachusetts, a "memorial block," measuring about 23 inches in circumference. The block is certified to have been cut from the main limb of what was known as the "Treaty Tree" at Yokohama, Japan. Under its shade Commodore Perry was received by the high officials of Japan, in 1853, and under it the treaty was signed subsequently by Commodore Perry, on the part of the United States, and by the high officials of Japan. The tree was recently cut down to make room for the new British Consulate, which is now being erected on its site.

OHIO.

A NEW German paper, Democratic in politics, has been begun at New Philadelphia.

THE largest income returned in Richland county is $102,230, and there are nine incomes returned of more than $5,000 each.

LUTHER NEWTON was crushed to death last week while at work in Junkins' iron mines, near New Philadelphia, by a mass of falling rock.

MANSFIELD, Ohio, has twelve wholesale firms whose sales amount to over fifty thousand dollars a year each. Of these four reach more than one hundred thousand and two more than four hundred thousand each per annum.

QUICK WORK.—At Marysville, on Saturday, two brothers named Draper were sentenced to the penitentiary for placing obstructions on the track of the Broad Gauge railroad, causing the accident above Urbana, mentioned in our issue of last Saturday.—*Springfield Advertiser.*

LAST week a dead, colored infant was found in a garden in Springfield, where it had been evidently buried for about a month, it was wrapped in a piece of an old dress which had belonged to a woman named Fanny Foster; other evidence led to her arrest and she is now in gaol charged with infaticide.

A YOUNG lady named Mary Ann Willets, living in New Lisbon, went raving mad last week, and as she had been attending the services held by a Swedenborgian minister, who had been in the town for several weeks, it was rumored that the teachings of this man had been the cause of her mental derangment, and considerable feeling against the minister was manifested, which was not altogether allayed, such is the power of prejudice, by the family acknowledging that the insanity was hereditary.

The Fall of the "Female Blondin."

On Tuesday evening an intensely exciting scene was witnessed at Bolton. In connection with Mr. Pablo Fanque's circus, the "Female Blondin" had been announced for an out-door performance. She was to walk along a rope fixed from the third story of the Old Coronation Mills to the top of the circus, the height of the rope being about sixty feet, and the distance some eighty feet. About half past seven the "Female Blondin" entered the Coronation Mills, which are being pulled down, and ascended the rope. She sauntered along it for a few feet with a light and easy step, but at about fifteen feet from where she started there was a large ugly knot on the rope several inches long. She essayed to cross it, and then turned back. In a moment, however, she resumed her perilous journey, amid the breathless anxiety of thousands who stood sixty feet beneath her. She approached the knot cautiously, crossed it, but just as her foot was leaving it she stumbled. At once she threw her pole to the crowd below, and with a desperate effort she grasped the rope. She is a strong, muscular woman, and exerted herself to regain a position on the rope, but hung suspended by the hands. The wildest excitement prevailed among the spectators. There were loud cries of "Lower the rope," whieh was accordingly done, but only for a few feet. With more speed than can be told a great number of men massed themselves together at the place over which she hung by the rope, and begged her to let go and fall. She did so and was caught by them, and although the distance she fell was almost fifty feet, she sustained no injury beyond the fright and a shake.—*London Shipping Gazette.*

The Revenue.

There has been much grumbling over General Grant's appointments, and some of them may have provoked it; but the fact is not disputed that *the current revenue since they were made shows a large increase over the corresponding weeks of last year*. Now the taxes have not been increased; our political adversaries say that the country is not prosperous; and it will puzzle any one to account for the increased receipts into the Treasury on any other hypothesis than that of increased efficiency in the collection. We believe the income of the Government since Gen. Grant's inauguration has exceeded that of the corresponding period of last year by fully Five Millions of Dollars; and that our National Debt has been reduced, over and above any reduction expected in the spring months of 1868, by fully Ten Millions. We submit these facts as a full justification of the changes made by Gen. Grant.—*N. Y. Tribune.*

Precautions Against Counterfeiting.

The Washington correspondent of the Baltimore *Sun* says:

The Committee of Clerks appointed by the Secretary of the Treasury to examine into the affairs of the printing division, is charged with the duty of ascertaining the most practical means of defeating the skill and ingenuity of counterfeiters. The Committee has decided on a method of preventing the alteration of the numbers on bonds and notes. The addition of one or more figures either before or after the original number is a common and easy mode of destroying the identity of the note or bond. It is proposed to print on that part of the bond where the number is placed a number of blue parallel lines, to be inclosed in brackets, and the whole figure is to be just large enough to admit the number.

WOULDN'D VOLE FOR HIM.—John G., whom every body in Pike knows, tells a good thing on Judge W., whom every body else in Pike knows. It runs thus: "Judge W. had his law office close to a certain Doctor's—in fact, they were separated only by a plank partition, with a door in it. The Judge was at his table, busy with briefs and bills in chancery. The Doctor was writing a letter, and, pausing for a moment, called out, 'Judge, isn't e-q-u-i the way to spell equinomical?' 'Yes, I think it is,' said the Judge; 'but here's Webster's dictionary—I can soon tell you.' He opens the book and turns over the leaves, repeating aloud, 'e-quinomical—e-quinomical.' Finding the proper place, he runs his eye and finger up and down the column two or three times, until he is thoroughly satisfied that the word in question is not there. Closing the book with a slam, the Judge lays his specs on the table, and, rising slowly, breaks forth: 'Well, sir, I've always been a Daniel Webster man; and I voted for him for President; but any man that will write as big a dictionary as this, and not put as common a word as e-quinomical in it, can't get my vote for anything hereafter.'"

The Great Meeting of the Dunkards.

BOTETOURT COUNTY, VA., May 21.—The meeting of Dunkards now in progress in this county is, as I am informed, a Seven Years' Convention, in which all parts of the United States are represented. The preparations for it on the part of the native members of the Society in Botetourt and Roanoke were upon a scale that would surprise any who are not familiar with the proceedings of these people on such occasions. The number of Dunkards expected as delegates and visitors from other parts of the country was by some set down as ten thousand, and by others as fifteen thousand. It is certain that the road leading up the valley has passed a large number, some of whom were from Maryland and Pennsylvania, and that the railroads have delivered a great multitude. Besides the accommodations provided for the members of their peculiar sect, the hospitality of the Dunkards takes into account the wants of their fellow citizens of other denominations who may visit them during the progress of their meeting. A gentleman informed me that a friend of his was pressed to go home with one who had already about fifteen vehicles, with their loads, moving to his house.

The camp ground of the meeting displays a vast array of tents, and the immense tables are provided with a number of deacons, who have been chosen to serve them. The store of provisions collected beforehand, may be judged from one or two items. In the article of beef cattle fattened, the number was seventy to eighty, and a visitor who saw them before the slaughter had begun, declared that he never saw a fatter and finer herd. As to coffee, the quantity prepared is said to have been so large that great out-door ovens were made to roast it in over huge log fires, and a grain mill was hired for the purpose of grinding it.

Of the arrangments for washing the feet of the disciples, I cannot speak particularly. When it is considered that each one of the great congregation has to receive this evidence of brotherly love the imagination of the reader will have ample scope to picture the nature and variety of the ablutions, and the quantity of water, basins and towels required in the premises.

It is equally impossible to describe the great multitude and variety of the kisses of charity which take place on the occasion, for with the meeting kisses, the parting kisses, and the kisses that transpire during the various religious services, it is hardly extravagant to say that the woods and fields are vocal with the notes of osculation—some so faint as hardly to be perceived, some a little more expressive, and some demonstrative and prolonged. This ceremony is strictly confined to the sexes to which the participants belong, men kissing men and women kissing women.—*Richmond Dispatch.*

A LONDON mechanic has invented a self-registering ballot box which it is claimed will effectually prevent stuffing or tampering with the ballots. It is thus described:

The machine is arranged for three candidates and two seats, with the capability of enlargement when necessary. The elector being provided with two balls, deposits them in the holes above which are recorded the names of the candidates whom he wishes to support. These holes are in the upper part of the machine, which presents the appearance of a large, irregular shaped cabinet. The balls having been deposited (and each aperture is only large enough for one ball, thus preventing the possibility of a fraudulent increase of votes), the voter closes a lid over the holes, and the setting in motion of a spring causes the balls to fall into a receptacle at the side of the machine, and at the same time registers on separate dial-plates at the base the number of votes, and the fact of the elector having voted. These operations are entirely concealed from the clerk, who sits on the other side of the machine, and, should he attempt to tamper with the instrument by improperly touching the spring, a voter is registered, but no votes. Plumping is to be provided for by a separate slit, entirely distinct from the register. The model registers up to one thousand, and some idea of the ingenuity with which it has been constructed may be derived from the fact that some of the internal wheels have been formed out of half-pence.

Napoleon as a Pianist.

Several distinguished musicians were talking with Liszt, who asked them if they knew who was the most skillful octave player on the piano. The musicians made a number of guesses, naming living as well as dead pianists, but at every new name that was mentioned Liszt shook his head. "You will not guess it, gentlemen," he said at last; "and the world will be surprised to hear that the most skillful octave player is no other than the Emperor Napoleon III." His hearers were greatly surprised, and Liszt then explained to them that Napoloon III, owing to the peculiar construction of his hand, was able to surpass the most celebrated pianist in this point. In alluding to this story, Rochefort remarks that he should be delighted to hear Napoleon as an octave player, traveling in foreign countries and trying to earn an honest penny.

THE Paris correspondent of the Boston Journal speaks enthusiastically of the great care taken of, and consideration for, children of France. He declares it to be one of the fashions of Paris to make special parties for children, and the same forms and ceremonials are gone through that mark a party for adults. A very marked illustration of this was seen at the Chinese Embassy lately. The Ambassador gave a series of entertainments to the nobility of France and the foreign Ambassadors. The series wound up with an entertainment in the same grand style which had marked the others, given by little Gertrude Burlingame to her associates, at which the American children in Paris were invited. The rooms were lighted in regal style. Servants were in full costume, music was provided, and a handsomer dressed and a happier room of children were nevar seen in Paris. Romps and games, American and Parian, filled up the hours.

TO PREVENT HYDROPHOBIA.—The following is said to be a sure remedy for apprehended ill-consequences from a dog-bite:

First. Immediately and thoroughly wash the wound with cold water and apply a bruised onion with salt.

Second. To one pint of sweet milk add one ounce of pulverized elecampane root, boil down to one-half,

Dose. For an adult one tablespoonful every three hours. The remedy should be applied for two weeks.

DR. WHITTIER

CONTINUES TO TREAT ALL private diseases. Syphilis in all its forms, Gonorrhea, Gleet, Stricture, Orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; Spermatorrhea or Seminal Weakness and Impotency, resulting from self-abuse or other causes, and which produces some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.

A particular attention given to all Female complaints, Leucorrhea or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, pruritis, Amenorrhoea, Menorrhagia, Dysmenorrhoea, and Sterility or Barrenness, are treated with the greatest success.

It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.

The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases, that can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instanees, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A. M. to 8 P. M. Sundays 12 M. to 2 P. M. Office, No. 9 WYLIE STREET, (near Court House, Pittsburgh, Pa.

PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE,
THURSDAY, May 27, 1869.

The oil market was again moderately active to-day though somewhat panicky, and prices are still tending downward. The hopes of the most sanguine "bears" have been more than realized, that is, the decline was more rapid than almost any one anticipated, and some of the shorts can now afford to cover and realize a very handsome profit; while others, who considered themselves on the brink of ruin three months ago, can now get out without being hurt very badly, and, it is possible, that they may yet be able to square up without sustaining any loss whatever, though this is hardly probable. As will be seen by reference to the report of shipments, several more refineries have started up, and upon the whole the trade is beginning to assume a more tangible and legitimate shape.

We have been furnished with some facts in regard to stocks of oil in some of the leading foreign markets, from a source that can be relied on. Total stocks on hand, shipments afloat, and loading at Bremen, May 5th, 1869, 93,537 bbls and 31,986 cases, against 95,789 bbls same time last year; at Antwerp, May 3d, 68,000 bbls and 134,000 cases, against 80,000 bbls same time last year; at Hamburg, April 29, 47,923 bbls, against 32,281 bbls same time last year; at Rotterdam, May 8, 12,876 bbls and 23,876 cases, against 25,924 bbls same time last year. Total stock at the four points above named, 222,266 bbls and 189,862 cases, against 239,364 bbls same time last year. The following are the exporty from all ports of the United States from January 1, 1869, to April 20, 21,439,205 gallons; same time 1868, 19,676,109; same time 1867, 13,829,898; same time 1866, 14,338,871.

CRUDE.

Compared with yesterday, has still further declined, and the market continues weak with a drooping tendency. Sales of 2,000 seller June at 12¾; 1,000 do at 12⅞; 1,000 do at 12¾; 3,000, seller 60 days, at 13; 1,000 June, seller, (40@45,) at 13; also, a "put" of 1,000 bbls next six months, at 12 and $200; 1,000 all year at 12¼ and $100; and 1,000 all year at 13 and $400.

REFINED.

Was weak, with more sellers than buyers during the early part of the day, but in the afternoon, under the influence of the eastern advices, the feeling was a shade stronger. Sales 500 each July to December at 32; 1,000 May at 30; 1,000 June at 30, and 1,000 each August and September at 31¾. The latest quotations from Philadelphia were as follows: June, 30⅛; July, 31; August 31½; August to December 32¼; and August and September at 31¾.

RIVER NEWS.

The river continues to recede steadily with four feet ten inches in the channel by the Monongahela marks last evening. If the rain of yesterday and the night preceding have been general, we may look for a rise, though it is not likely to amount to much unless there is more rain. The weather is much cooler.

In referring to a new boat yesterday, just contracted for by Com. Kountz, we stated that she was to be a duplicate of the Carrie V. Kountz, with the exception of an additional boiler. The new boat is to be a foot wider than the Carrie V. and this, we are informed by the Commodore, will be the only difference.

Boats in port—Armadillo, Glendale, Kate Putnam, R. C. Gray, Matamoras. Next boats due—Lorena, Glasgow, Argosy and Belevernon.

Capt. Dan Moore leaves for Cincinnati to-day by rail, at which point he will take charge of the office of the Leonidas. Mr. Fisher, who has been clerk of this boat for several years, is about to make a trip to England, to visit his mother.

Capt. D. S. H. Gilmore has made three trips as clerk on the Kenton, in place of Mr. Wm. Anderson who has been and is still ill and unable to attend to his duties. Capt. Gilmore is assisted by Hays Moore, late of the Bayard. The Kenton will depart as usual to-day for Portsmouth.

Capts. Andrew Ackley and Dan Moore have contracted for a new side-wheeler for the Pittsburgh and Cincinnati trade. She will be somewhat larger than the McCullough, and it is expected that she will be ready for the fall trade.

The Gallatin having been withdrawn from the Parkersburg trade, has been taken charge of by the owners, the Brownsville packet Company.

The Glendale, Capt. Hare, with the veteran Mellon, in the office, is announced to depart for St. Louis and the Upper Mississippi to-day without fail. She is, in all respects, one of the best boats in the trade.

The Kenton met the Wauanita at Economy yesterday, morning, and it is said that she looked as though she had been sparring. She could not have had very much trouble, however, as she only left here on Wednesday afternoon,

The Matamoras No. 2, Capt. Dalzell, is announced to depart for New Orleans to-morrow, and those interested should bear this in mind.

The Armadillo is up for St. Louis and the Upper Mississippi.

—The Belle Vernon was to have left Cincinnati for Pittsburgh on Wednesday.

—The Glasgow, St, Paul to Pittsburgh, arrived at St. Louis on Sunday with a full cargo. Capt. Andy Robinson says he likes the St. Paul trade, and intends to stay in it. The distance from Pittsburgh to St. Paul and back to the point of starting is 4,024 miles—some say more.

—A St. Louis dispatch under date of Tuesday says: The following towboats and barges are now lying at the Iron Pile, at Carondelet, waiting cargoes of ore: Mary Davage and two barges; Tom Reese, three barges; Garrett, two barges; Allegheny Belle, four barges; besides about twenty barges, owned by old Bill Brown, of Pittsburgh, and the Ohio Salt Co. The Reese will leave for Pittsburgh to-morrow, the Davage, Thursday, and the Allegheny Belle and Garrett will follow soon after. The Tom Farrow will go to the iron pile to-morrow.

—Active steps are being taken to form a company to bridge the Missouri river at Boonville, with a capital of $1,000,000. From present indications the stock will be rapidly taken. A charter has been applied for.

—The steamer Stonewall was caught in a storm on Tuesday, six miles below Brunswick, on the Missouri river, and had her chimneys, texas and part of her cabin blown away.

—The Evansville *Journal* of Monday, says: The Belle Vernon, from St. Louis, arrived about eleven o'clock last night with an excellent trip. She laid here some time, while Captain Darragh was trying to make some disposition of an insane woman who had taken passage at Cairo for this city, but who had become insane on the way up. The city authorities refused to render him any assistance, which is not particularly creditable to the humanity of mankind in general, or of the city authorities in particular.

—The towboat Hawkeye No. 1 was sold on Wednesday by Fox & Lawson to Capt. John Noss, for$3,600. Capt. Noss, after having her repaired and repainted, contemplates towing between here and Parkersburg.

—The Louisville *Courier-Journal*, of Wednesday, says: The Silver Moon still remains fast on the rocks. Her cabin furniture was taken off. Capt. Henry Jones President of the Cincinnati & Memphis Packet Company, was here yesterday, and turned her over to Capt. Pink Varble to get her off when the river rises. Capt. Merillees and the crew are still aboard of the Moon.

—A Memphis special to the Cincinnati *Commercial* says: The steamer Cora S., from Cincinnati to Arkansas River, with a valuable cargo, sunk, this morning, at Fletcher's Landing, Arkansas River, fifty miles above the mouth. The boat is a total loss. A portion of the cargo will probably be saved. Both are insured in the Cincinnati offices. As far as known, no lives are lost.

—A steamboat clerk thrashed a Western delegate to the Commercial Convention in Memphis, Friday, for insulting a lady on the Marble City.

—The Keokuk *Gate City* learns that at a late hour Thursday evening, the steamer Canada, on her up trip, Wednesday night, struck a snag near Canton and came near sinking. The boat sustained considerable damage.

—The New Orleans *Times* of Friday says the steamer Richmond had a splendid trip of passengers, and but little freight. Freights for the Ohio River at present are rather scarce.

—Red River is falling above the Raft, and from Shreveport out. Ouachita River is receding rapidly at Camden. Other tributaries continue in good boating order. The river at New Orleans on the 19th was within three inches of the high water mark of 1862.

—Popular Bluff, Missouri, a point on Black River, is the head of navigation on that stream. The steamer Malta arrived at the wharf on the 12th, and left on the 14th inst., with a good trip of passengers and freight. The navigation of Black River is an accomplished fact, in connection with a railroad from Cape Girardeau, by way of Morley to Indiana Ford and the Bluff, places the future success of the Bluff beyond doubt. The Malta is commanded by J. F. Tubb, Esq , J. W. Baldwin engineer, and Charley Beers holds the wheel.

FRIDAY, MAY 28, 1869.

☞ REPUBLICAN COUNTY CONVENTION.

The Republican voters of Allegheny county are requested to meet at the usual places for holding elections in the several wards, boroughs and townships, on

SATURDAY, MAY 29th, 1869,

And elect delegates from each election district to each of the three following Conventions, viz:

Two delegates from each to the COUNTY CONVENTION, for the purpose of nominating candidates for Sheriff, Recorder, Register, Treasurer, Clerk of the Court of Quarter Sessions, Clerk of the Orphans' Court and Commissioner.

Two other delegates from each to the LEGISLATIVE CONVENTION, for the purpose of nominating one candidate for State Senator, for one year, to fill the unexpired term of Russell Errett, resigned, and six candidates for Assembly. And

Two other delegates from each to the JUDICIAL CONVENTION, to nominate one candidate for Judge of the District Court, and one candidate for Judge of the Court of Common Pleas, and elect eight delegates to represent the county in the Republican State Convention.

These Conventions will severally meet, in the city of Pittsburgh, on

TUESDAY, JUNE 1, 1869,

At 11 o'clock A. M., at the following places:

The COUNTY CONVENTION will meet at the COURT HOUSE.

The LEGISLATIVE CONVENTION will meet at CITY HALL, on Market street. And

The JUDICIAL CONVENTION will meet in MASONIC HALL, on Fifth avenue, between Wood and Smithfield streets.

The election of delegates will be held between the hours of 4 and 7 o'clock P. M., and will be held, as far as practicable, by the Republican members of the election boards in the several districts; and in those districts where the Republican election officers are a minority of the regular election boards, the said officers are authorized to appoint enough additional officers to complete the board.

The voting in the cities and boroughs shall, in all cases, be by ballot, and in the townships by marking.

The President of each Convention will appoint a Committee of three, the three Committees thus appointed to meet together, as soon as practicable after the adjournment of the Conventions, and appoint a County Committee for the ensuing year.

By order of the County Committee.

RUSSELL ERRETT, Chairman.
JOHN H. STEWART, Secretary.

FEDERAL OFFICERS at the South, who defaulted at the outbreak of the rebellion, are held by Judge CHASE to be protected by the statute of limitations against suit for the monies in default. It is probable that additional legislation by Congress will be necessary to meet these cases.

AN act of Congress, at its last session, applicable to the District of Columbia, recognized, to the fullest extent, the absolute right of the married woman to her separate property, whether acquired before or after marriage, and conferred upon her the right to sue, or be sued therefor in her own name.

SECRETARY FISH, on being made fully satisfied that the steamer Quaker City was not destined for Cuba, granted her clearance from the port of New York. Whereupon the Spanish Consul, not satisfied with her Pacific intentions, had her libelled and seized, so that the matter will go to the Courts.

CORRINE is a thriving Pacific Railway town three months old, with a population of ten thousand, a municipal government, and a daily paper. It promises to live longer than most of the brief experienced cities of the great interior, which rose with one new moon and were not found by the light of the next.

THE Mayors of both cities have issued proclamations, requesting the general observance of to-morrow as a holiday, and wishing a total suspension of business. We trust that our merchants and manufacturers will universally respond, and thus enable everybody in their employ to participate in the ennobling exercises of the day.

THE Union of the Old and New School Presbyterian Churches, is about consummated. In the Old School Assembly, at New York, yesterday, a concurrent declaration was reported arranging the details for union on a broad and amicable basis. We see no impediment remaining to prevent the cementing together of the two great and powerful religious bodies.

THE proprietors of the Erie *Republican* have brought suit against the Typographical Union of Erie, on charges of conspiracy and libel. The Union took upon itself the responsibility of flooding the country with circulars denouncing the proprietors as unfair in their dealings toward their employês, and warning compositors not to engage with them.

IT HAS recently been decided in New York, in a suit brought against a gas-company, to recover money paid by a consumer under protest, against the threat of the company to take away the meter unless the disputed bills were paid, that such payment was not a voluntary payment, and would not estop the consumer from suit to recover it.

THE Mayors of both cities have issued proclamations requesting the general observance of to-morrow as a holiday and inviting a total suspension of business. We trust that our merchants and manufacturers will universally respond, and thus enable everybody in their employ to participate in the ennobling exercises of the day.

THE XVth Article is regarded in Rhode Island as certain, if adopted, to admit their Narraganset Indians to the suffrage. There are also apprehensions that the word "race" in the Article is properly liable to the same objections which led to the erasure of the word "nativity" from its original draft. But, it is probable that the Legislature, at its present session, will agree to the ratification.

THE Philanthropic Indian Peace Commission was interviewed by the President yesterday, and laid before him their fully digested plans for securing the peace and happiness of the redmen, by buying them into civilization. The President fully concurred in the views of the Commission and acquiesced in the plan presented. Unless the Indians are more vicious and untamable than most people believe them to be, the new Commission has struck the proper method of putting an end to the frontier troubles.

NO CHANGE, whatever, has been made in her divorce laws, by Indiana, since 1859. A variety of amendatory legislation has been annually attempted, but has as regularly failed. The laws continue unchanged, granting divorces for the causes usually specified, "and for any other cause for which the Court shall deem it proper that a divorce should be granted." It may be well enough to add that the opinion very generally prevails in that State that these legal provisions are conducive to domestic happiness and general morals, and should be maintained accordingly. An opposite view obtains very generally elsewhere.

THE British Government demanded the release of the Quaker City, a steamship which our authorities seized and libelled upon suspicion that she was to be employed in the violation of our neutrality toward Spain. The demand was placed on the ground that the vessel is British property.

Secretary FISH, on being made fully satisfied that the steamer was not destined for Cuba, granted her clearance from the port of New York, whereupon the Spanish Consul, not satisfied with her pacific intentions, had her libeled and seized, so that the matter will go to the Courts.

A CLEVELAND paper has discovered "one of the finest mathematical geniuses of the age" in "a plain home-spun farmer, having little in his personal appearance or surroundings to distinguish him from the ordinary tiller of the earth," and who lives in one of the rural townships of that county. This gentleman, Mr. J. N. STOCKWELL, of Brecksville, Ohio, has recently had a remarkable paper printed in the transactions of a scientific society, its title being "Remarks on the Secular Varieties of the Planetary Orbits." The contributions of the plain Ohio farmer have, it is said, "already excited the deep interest of prominent mathematicians in the Eastern States and in Europe, and propositions that he has propounded for their consideration are still baffling the efforts of some of the most profound among them to confute."

THE PUBLIC LIBELLER.

The Pittsburgh *Commercial* has achieved for itself a most remarkable record during its brief existence. Everything by turns and nothing long, its constant inconsistencies, its startling vagaries, its habitual alacrity in abandoning to-morrow its positions of to-day, the facility with which it has always been ready to stab a friend or cringe to an enemy, and the uniform disaster which has attended all its undertakings in the direction of public opinion—these peculiarities of our neighbor have been steadily a subject of curious contemplation in this community. A variety of hypotheses have been from time to time framed by the public which were intended to be explanatory of either of its vascillations in principle, or its terrible blunders upon every grave matter of tact. These hypotheses have had one—and but one—element in common, differing from the rest in every particular.

It has been agreed on all sides that the *Commercial* was faithfully and consistently Democratic in this: that, whichever way the political winds blew, its journalistic nose was never known to be pointed toward anything else than the public plunder. Constantly watching for its own chance to levy a contribution out of some treasury, national, state or municipal, not a whimper of public virtue was ever heard from the *Commercial* while its profit lay in keeping silence. When its managers could get neither a job, nor a fee, nor a blackmailing bribe, *then* their voices were always uplifted, in high-sounding but vague or empty accusations, as of late. The dollar is the *Commercial's* touchstone, not only for itself but for all other men. If it cannot plunder for itself, it naturally presumes not that plunder is checked but that some one else is engaged in it. Its normal idea of public morals is that of an universal dishonesty. It presumes the rest of the world to be akin, in the same idea, and that the public virtue of which it prates is wholly a myth.

An old English philosopher held the natural state of man to be one of war. The later creed of the Pittsburgh *Commercial* maintains that state to be one of peculation and jobbery—and it has its own reasons, no doubt, for thinking so. Evil to him who evil thinks! This proclivity to impute moral obliquity to others has ever been regarded by moralists, as a clear proof of moral perversity in the censor. The standard by which the *Commercial* has always measured the rest of the world is simply fatal to its own reputation. Always consistent in holding some dirty and scandalous evil to be the common aim of others as well as of itself, it has constantly groped in the mire, wading through the sewers of politics, and happy only in gloating over some secret nastiness, instead of walking erect and above ground, clean itself and in a cleanly world, and dealing with mankind in a manly way under the light of the sun. Paugh! "An ounce of civet, good apothecary!"

And what jewels has the *Commercial* found among its congenial dirt? What frauds has it exposed? What wrongdoer has it convicted? Where is its proof? And only echo answers. Whenever it has ventured to stigmatize an individual name, it has been squarely met by that individual's public contradiction and challenge to the proof. Whenever it has denounced a specific act, the facts are so far wanting, to uphold its gross accusations, that the entire fabric of its calumnies—upon men whose worst fault, in the *Commercial's* eyes, is that they have not winked at its own little game of public plunder—has already fallen even below the public scorn. Not one count remains standing in the indictment which its trumpets have flourished over for weeks past. Its presentment has been quashed, for its own imperfections, before the jury is even empannelled. Instead of submitting its proofs, it ignores the evidence altogether. It has not dared to print an authentic statement of the facts in connection with any one of its accusations against the late Republican legislature. It has not had the honest boldness to put its finger upon one specific case of that general corruption which it has sweepingly imputed to the Republican party in Allegheny county. It has rung the changes, for days and weeks together, upon Legislative dishonesty, and upon partizan mismanagement, cunningly adhering to generalities and even evading any precise specifications. It stands to-day a libeller not only of a great party, but, worse than that, of the fair name of an ancient and honored Commonwealth—a libeller without the faintest shadow of any honorable justification. If it could, it would have stabbed Republicanism with a cowardly inuendo, and it has degraded its own State of Pennsylvania, at home and abroad, with slanders which have as slender a base as the fabric of any dream.

LEGISLATIVE CORRUPTION.

MESSRS. EDITORS: It is eminently wise and proper in journalists to battle against corruption, no matter what shape it may take, or in what quarter it may develope itself. A newspaper can afford to be right at all times, and at no time do the people more earnestly endorse its course than when manfully striving to accomplish reform in any direction. When the Pittsburgh *Commercial* first sounded the signal of warfare on what it denounced as a corrupt and dishonest Legislature, and proclaimed that the public moneys were being wasted and plundered by those charged with the high duties of legislation, the people applauded its course, admired its ostensible honesty and only waited to form a verdict as to the guilt of the entire body of law makers, when that journal should spread the supposed facts held back before its readers and fix with certainty its charges of corruption on the members. True, the public were prepared to believe that all the honest men of the Commonwealth had not found seats in the Assembly, but they did hesitate in passing judgment on the whole body as a conclave of thieves and plunderers. Time wore on and instead of particularizing the sins of members, the onslaught was weakened by the employment of vague and uncertain generalities, and crying out "plunder" without showing where there was plunder. The public mind soon underwent a change and the child-like virtue of the *Commercial* commenced to assume darker and darker shades till it flashed on the people that the attacks were not animated in the true spirit of reform, but sprang from a desire to degrade, in the estimation of good citizens, gentlemen who, in sins of omission, had drawn upon their heads the wrath of that journal.

In the absence of any positive proof of the universal corruption charged to the late Legislature, I imagine that a few facts having a bearing in the opposite direction will find place in your columns.

It will be remembered that the signal for bitter onslaught on the Republican majority of the Legislature was sounded when the pasting and folding of the two houses was brought before them. Two individuals, anxious to obtain cheap notoriety, proposed to do the work for $9,000, or if they failed to obtain that sum, to drop $2,000 in the price. The Houses, measuring the contractors as men anxious to make inroad to the Treasury, even at a temporary sacrifice to be regained in the future, preferred that their own officers should continue to do the work. By the Auditor General's report for 1868, I find that the officers of the two Houses, last year, cost $111,841 05. By a law passed at the previous session, limiting the number and fixing the pay of the officers of the two Houses—a law framed and passed by Republicans—I find that the officers of the recent Legislature were fixed as follows:

Two Chief Clerks.....................	$2,000	$ 4,000
Four Assistant Clerks at.........	1,200	4,800
Ten Transcribing Clerks at......	800	8,000
Two Librarians at.....................	800	1,600
Three Postmaster and Assistants	800	2,400
Eight Sergeant-at-Arms and Assistants a.................	600	4,800
Seven Doorkeepers and Assistants at........................	600	4,200
Seven Messengers and Assistants	600	4,200
Two Superintendants of folding room at........................	800	1,600
Seventeen Pasters and Folders at	600	10,200
Total..........................		$ 45,800
Total last year...............		111,841
Saving this year..........................		$66,041
To this number of officers the House added 27, alleging it had not enough, all at................	$ 600	$16,200
Deducting which, leaves total saving......		$49 841

Or, in round numbers, $50,000 saved by the Legislature on the previous year's expenses!

Of the twenty-seven additional but twenty-three ever took their place or received remuneration. Even the thirty-four were not able to do the work. In the caucus of Republican members it was agreed to increase the number eighteen, believing that so many more were absolutely necessary. If any error was made it was only to the extent of a surplus of eight or ten men, a matter trifling and yet magnified into such large proportions by the editor of the *Commercial*.

Above I have shown in round numbers that $50,000 was saved by the last Legislature in expenses over the preceding one. But in the eyes of the *Commercial*, to save that sum was nothing, and the party deserve no credit for the economy so long as the two Houses refused to save nominally about $3,000 by giving out the pasting and folding to contractors.

The *Commercial* has accomplished but one result in its unwarranted attacks on the late Republican Legislature; it has furnished food for slander, to the opposition journals, which will most assuredly be sent back to us in the approaching campaign. In its wholesale denunciation of "rings" and "party leaders," it vainly attempts to fly from the legislative corruption topic, where it never could hold its ground, and shelter itself in local prejudices which must always exist against men who, in the very force of character which makes them leaders, gain for themselves the jealousy and opposition of those with light brains, who keep their places at the foot of the ladder in all worldly strifes whether in politics or business.

OF the $40,000 raised and expended, since 1865, by the New York Free Trade League, to crush the interests of American industry, more than three-fourths was subscribed by merchants or ship owners in foreign trade, or by the agents and American correspondents of European manufacturers.

At a meeting of this League, held in Brooklyn on the 24th, an Englishman, named Hodgskin, read an essay, in which we find the following passage:

"Let me tell you what Protection is. I can but illustrate it by example. In Pennsylvania, iron ore, limestone and coal; the three principal elements of the iron manufacture, are found so near together, in such large quantities, and of such superior quality, that anyone would think that iron could be manufactured there cheaper and better than anywhere else in the world; yet when the Pennsylvania iron maker has made his iron and offers it for sale, he finds that a New York iron merchant can bring similar iron all the way from England, and can pay freight on it and commissions, and make a profit on it, and then pay the freight on it all the way from New York to the very door of the Pennsylvania foundery, and sell it cheaper then the Pennsylvanian can. What is the cause? There are several, but the principal one is this: In order to make iron, it takes a little iron ore, a little limestone, a little coal, and a prodigious amount of labor. The three first ingredients are as cheap in Pennsylvania as anywhere; but the last and principal one, Labor, is so much dearer in Pennsylvania and in the whole of the United States than in England, that, in spite of the cheapness of the other ingredients, the iron costs so much more to make than the English iron, that the English can pay all the expense of bringing their iron over here, and yet sell it cheaper than we can ours."

Upon which the New York *Tribnne* remarks:

Compare this true explanation by a sincere, honest Free Trader with the stuff put forth by Wells, designed to prove that the price of iron is high here only because the duty enables the ironmasters to realize exorbitant profits. Mr. Hodgskin touches the core of the matter, and exposes it to the whole world

THE Washington *Reporter* thus speaks of General JNO. F. HARTRANFT, in connection with the next Republican nomination for Governor:

"General Hartranft is a young man of fine abilities, high character and strict integrity. Perhaps no public man in the State possesses such an unblemished reputation. He is a lawyer by profession, but when the war broke out raised a regiment in his county (Montgomery) and led it to the field. By conspicuous gallantry he rose, before the war was ended, to the rank of Major General. His gallant conduct at Fort Steedman just before the close of the war will long be remembered. He was elected to the office of Auditor General in the fall of 1865, and re-elected last fall. He has developed the highest abilities and business qualifications in the department over which he is placed. He is very modest and unassuming in demeanor, dislikes eclat or notoriety, and never seeks anything like prominence. He is universally popular with the soldiers, and if nominated would receive an enthusiastic support from that element. Had he not been made Auditor General, he would have received the nomination three years ago instead of Geary."

THE Doylestown *Democrat*, an opposition journal, denounces the Republican party in an article from which we clip the annexed extract as a specimen:

"Their first President from the wild woods of Illinois *was shot in a third-class theatre and died in a house of questionable name*, from which spot they would have us believe the soul of this "Martyr Chieftain" went up to Heaven and the angels."

THE Kittanning *Republican* remarks:

"The Pittsburgh *Gazette* reads the Pittsburgh *Commercial* out of the party. We think this should have been done long since. The Republicanism of that journal to our mind has been long of a very doubtful character."

Decoration Day.

The Executive Committee of the G. A. R. assembled at City Hall yesterday afternoon, General Pearson in the Chair.

Capt. W. B. Cook read a communication from James Verner, Esq., President of the Citizens Passenger Railway, stating that transportation for the orphan children to and from the Soldiers' Home would be furnished free of charge by the Company, as requested.

A vote of thanks was tendered Mr. Verner for his kindness in acceding to the request of the Committee.

Capt. Cook stated information had been received that five hundred and fifty children from the Seventeenth, and two hundred and fifty from the Fifteenth ward public schools would join in the procession. The matter had been mentioned in other schools, and was under advisement.

A communication was read from Dr. Howard, in which he consented to open and close the exercises at the Academy of Music with prayer, according to the invitation of the Committee.

The location of the battery for firing the salute on Saturday was left to the discretion of Gen. Pearson, Chairman of the Committee.

Adjourned until this afternoon at four o'clock.

More of It.

The Bevins-Hemings-Fisher sensation, which, it will be remembered, occupied the attention of the Mayor's court, under a former administration, for some two weeks, and which was then tranferred to New York city, where, we supposed, it had been finally adjusted, has, we observe by the following telegram from New York, been revived:

"Kate Fisher, the actress, was in court yesterday on a charge of grand larceny, preferred by Mrs. Bevins, of Long Island, in having, it is alleged, stolen a watch worth two hundred dollars. She denied the act, and the case was postponed until Friday."

There is an action pending in the District Court of this county for slander, in which Miss Kate Fisher is plaintiff, and Mr. and Mrs. Bevins defendants, which may have had some influence in bringing about the above prosecution. From the report of the case against George Hemings, charged with larceny by Mrs. Bevins, through the New York papers, we thought Mrs. B. had been so completely ventilated as to cause her to keep out of police courts, but she appears to be one of the "irrepressible."

Alleged Horse Stealing.

Nicholas Walker made information before Justice Heisel, yesterday, charging Mike Felix with horse stealing. The prosecutor alleges that he purchased a horse from Felix, some time since, for forty-five dollars, thirty-five of which was paid down, the remaining ten to be paid at some subsequent time. On the 24th the defendant, he asserts, came to his residence, in Mifflin township, and demanded the balance due on the horse. Not having the money to pay it, he was requested to "call again," but instead of so doing, the prosecutor alleges that he took the horse out of the pasture, brought him to the horse market in this city and sold him. A warrant was issued.

—The St. Louis income return list of last year is published, and shows only two hundred and one incomes of over five thousand dollars. Of the largest incomes, the following are the most prominent: John G. Rose, $211,000; Francis Whitlake, $140,000; John Whitlake, $140,000; Joseph Whitlake, $30,000; L. L. Ashbrook, $40,000; H. —Resolutions are to be proposed, to-day, in the Canadian Parliament, relative to the acquisition of Hudson Bay Territory, asking the Queen to unite Prince Rupert's Land and the Northwestern Territory with the Dominion of Canada, on the terms prayed for in the joint address of both branches of the late Parliament, the Canadian Government to make provision for the protection of the Indian tribes.

MECHANICAL MEDICAL APPLIANCES.

There are certain phases of disease, and certain diseased conditions of the human system, which proceed from displacement and mal-position of some of the various organs of the human body. These are not remediable by the usual and ordinary methods used for the cure of other ailments; but require some mechanical stay or support to maintain the parts in position until they are healed. Prominent among these may be classed a displacement called hernia, or rupture, which is a protrusion of part of the bowel, and which must be returned and kept to its place by some outward support which should be properly adjusted in order to secure immunity from inconvenience and danger. The prevalence of this condition is now very common and should be attended to, immediately on its appearance, not only because of the present inconvenience which its produces, but also in consequence of the usual danger of strangulation which is rarely remedied but by a surgical operation.

Varicose veins in the legs and varicocele are other forms of structural changes which need immediate and scientific outward support, in order to afford relief or effect a cure. Each of these conditions are now as much within the pale of successful treatment as any of the other diseases to which mankind are liable.

Stooped shoulders may be cured at once by the use of my Shoulder Braces, which not only maintain the body in an erect position, but at the same time enlarge its capacity, and allow free and full expansion to the lungs, always a necessary condition to a healthy and perfect use of the pulmonary organs.

There are hundreds of females who would find great benefit from wearing these shoulder braces as they are so constructed as to take all the dragging weight from the back or spine and suspend the clothing from the shoulders. Those who use my shoulder braces need not wear suspenders, as they answer the double purpose of shoulder brace and suspenders; in fact they are the best suspenders ever invented. Sold and applied at

THE VITAL STATISTICS OF THE UNITED STATES

Show that periodical fevers and acute and chronic disorders of the stomach and bowels are among the most prominent and fatal diseases in this country. Disobedience to the laws of health, as regards diet; the use of pernicious stimulants: and the wear and tear of business excitement, and of "fast life" generally, have much to do with the prevalence of these maladies in our cities; while in the West, and especially in the newly opened districts, they are chiefly due to malaria, unwholesome water, and the exposure and privation incident to life in new settlements.

Now, IT IS A FACT that that it is as possible to protect the human system against these maladies as to guard life and property against the incursions of assassins and thieves. Strengthen the vital organization with HOSTETTER'S STOMACH BITTERS, and it becomes as capable of resisting the active principle of epidemic or endemic disease, as a fire-proof safe is of resisting the action of combustion. This is the experience of thousands who have remained unscathed by malarious disorders in the sickliest seasons, while their neighbors, who neglected to tone and regulate their systems with this unequaled medicinal stimulant, have fallen thick and fast around them. Weakness invites disease. Vigor repels it Help nature to fight the good fight with infection, whether it be in the air, in the water, or the soil with this matchless preparation—a compound of the rarest vegetable extracts with the purest of all diffusive stimulants.

PHILIP HOERR, P. M.

A GREAT SUCCESS!

DEXTER

WASHING MACHINE!

It washes the finest fabrics, without injury, perfectly clean in less than one-eighth the ordinary way. It does not rub the cloth, but performs the cleaning process by steam and the quick action of hot water. It can be operated by a child. Its great cheapness makes it accessible to every family, and saves its own cost in doing away with tubs.

NEW YORK, May 27, 1869.

Money moderately easy, with most of the loans at 7 per cent. on call. Sterling quiet and firm at 9½@9⅝ for prime 60 days, and 10@10⅛ for sight. Gold lower and opened at 139¼, fell to 138¾, advanced to 139¼, fell to 138⅞ and closed at 139⅛. Bears were free to sellers. Carrying rates 4@7. At the Treasury sale $1,000,000 was awarded in seven lots, ranging from 138 76-100 to 139 13-100. Clearances $107,000,000. Exports to Europe $200,000, and Havana $220,700.

Governments opened lower, but subsequently advanced and closed firm, on information that the Secretary of the Treasury declines to withdraw 3 per cents with his surplus of currency. Coupons '81, 121@121⅛; do. '62, 121¾@122; do. '64, 116¼@116⅜; do. '65, 118¼@118⅜; do. new, 119@119⅛; do. '67, 119@119⅛; do. '68, 119@119⅛; 10-40s, 109@109¼; Pacifics 106½@106¾.

Dry Goods Market.

NEW YORK, May 27.—Already there has been a movement in printing cloths and an advance of ⅜@½c per yard established, but there are other classes of unbleached muslins, which are selling at relatively lower rates, that must eventually advance, as production is now reduced to meet the limited request of trade, which is generally exceedingly quiet. In York 30 inch Ticks an advance of 1c is established; the goods are now selling at 26. The Wauregan blue Denims have, on the contrary, declined from 22½@21. The sale of Lancaster Hercules, by auction yesterday, was a perfect slaughter, the goods being closed out at 1,62½ per dress of 13 yards.

PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, }
THURSDAY, May 27, 1869. }

The most encouraging feature we have to notice just now is the fact that the weather is all that could possibly be desired for the growing crops, and never were the indications more favorable for an abundant harvest. There was a larger area of ground put in grain this year than ever before known, at least it is so reported, and the yield, according to present indications, will doubtless be the largest in the history of the country. Unless there is a blighting June frost or something of that character, we may look for cheap Flour and Grain next fall, and possibly before that, and there is nothing perhaps that could add more to the strength and stability of the country, than good crops.

APPLES—Out of season.

APPLE BUTTER—Sales at 1@$1,10.

BUTTER—Is very dull and prices have still further declined; we now quote prime to choice at 20@28.

BEANS—Dull at $2@2,75.

CARBON OIL—Is quoted in a jobbing way at 29@30.

CORNMEAL—$1,50@1.75 per cwt.

CHEESE—In better supply but unchanged; Sales of new Western Reserve at 18@20, and New York Goshen at 22@23.

DRIED FRUIT—In fair demand and limited supply; sales of Peaches at 14 for quarters and 18 for halves, and Apples at 13@15, as to quality.

EGGS—In fair demand, with regular sales at 17@18, and only moderate receipts.

FEATHERS—Quoted at 80 cts, to the trade, and the usual advance, for small lots in store.

FLOUR—Is dull and a little weak; dealers are more disposed to realize and country millers are also anxious to sell. Prices, however, remain unchanged, at $6,50@7 for Spring Wheat brands and $7,25@7,75 for Winter Wheat. Rye Flour, $6,50@6,75.

GRAIN—There is not much Wheat offering and not much wanted; we continue to quote prime Red, at $1,45@1,47. Oats steady but unchanged; sales to arrive at 68, buyers furnishing sacks; on track, at 70; and in store at 75. Ear Corn is scarce and prime Yellow may be quoted on wharf and track at 78@80. Shelled is quoted all the way from 70@78, as to quality and rather dull. Rye very dull and dealers generally are only offering $1,25. Barley, $1,70@1,75.

GROCERIES—The grocery trade, like every other branch of business, is reported dull, but some of our dealers anticipate an improvement in June, and it is probable that there will be a brisk demand for Sugars all Summer, as the fruit crops promises to be an abundant one. In regard to prices there are no important changes, and no difference in the tone or feeling, with the exception of Sugars, which are stronger. Following are the ruling quotations:

SUGARS—S H, 11¼; A A, 13; Havana 14; Cuba, 13; Porto Rico, 14@14½ Demarara, 15½; New Orleans, but little prime in market and sells readily at 14½@15; lower grades, 13@14; Refined, Ex. C, 15¾; B, 16; A, 16¼; Hard, 17¼.

MOLASSES—New Orleans of good quality is in strong request and bring 80@85; Porto Rico, 65@75.

SYRUPS—White Honey Drips, $1,15; Silver Drips, 95c; Jersey, $1,05; Golden 85; Amber, 75; Common, 55@75.

COFFEE—Fair to Good Rio, 20@22; Prime, 24½@25; Choice, 26@26½.

RICE—Carolina, 10½ to 11c; Rangoon, 9½c.

TEAS—Young Hyson, $1,10 to 1,85, G. P., $1,10 to 1,90. Imperial, $1,40 to 1,80. Oolong, 85 to $1,45. Sou Chong, 90c to $1,50.

STARCH—Pearl, 7½; Silver Gloss, 12c, and Corn Starch, 12½c.

CONCENTRATED LYE—$8,00 per case.

FRUITS—Layer Raisins, $3,50 per box; Matt do, $7,50; Prunes, 14c; Currants 13c; Vallencia Raisins 14½.

SPICES—Cassia, 90c; Cloves, 45c; grain Pepper, 36 Allspice, 33c; Nutmegs, $1,50.

BAR LEAD—12½c; Shot, $3,25 per bag.

SOAPS—"Babbit's," 12c; "Oakely's," 11c; Rosin, 5 to 7c; "Dobbin's," 15c; Wax, 10c; Chem. Olive, 9c.

CANDLES—Mould, 16c; Star, 25c.

BI CARB SODA—$7,00 per 100.

FISH—White Fish $8,75 per half bbl. Lake Herring $3,75.

TOBACCO—Navy 67@70, 10's flat 67@70; Spanish Roll 75's; Cut and Dry ¼'s ½'s and pkgs 28@30.

HAY—Is dull but unchanged; good to prime baled, may be quoted, on wharf, at $24@26.

HUSKS—Sales corn husks at 3½.

HEMP—Sales at $215.

HOMINY—$4,75@5 per bbl.

LARD OIL—F. Sellers & Co. quote Extra No. 1, at $1,50 and No. 2, at $1,20.

LIME—Cleveland Lime is quoted at $2.50, per bbl, and Common White at $1,75.

MAPLE SYRUP—Sales in gallon jugs at $1,50.

POTATOES—Dull but unchanged; may be quoted at 40 on track in bulk, and 48@50 in store.

PEANUTS—Held at 12c.

PROVISIONS—Bacon Shoulders; 14; Ribbed Sides 16¼@16½; Clear do, 17¾@18; Plain Sugar Cured Hams 19@19¼; Canvassed do 19¾@20. Dried Beef, 20@20½. Lard, 19½ in tierces, and 20½ in kegs and buckets. Mess Pork $32@32¼.

SEEDS—The season is about over and there is not enough selling to establish quotations.

SALT—Sales of car load lots at $1,83@1,85.

TALLOW—Is quoted at 10¼@10⅝, for rendered, and dull.

ST. LOUIS, May 27.—Tobacco steady and unchanged. Cotton; sales of low grades at 24½@26c. Hemp unchanged, with sales of undressed at $1,10@1,20. Flour dull, with only a small local demand; superfine sold at $4,25@5,25, latter for choice fall; $4,85@6,00 for extra spring double extra and fancy club, and $7,00@7,50 for treble extra. Wheat lower and irregular; No. 2 in sacks sold at $1,08½, No. 1 in elevator at $1,10, fair to choice fall at $1,20@1,50, and strictly choice to fancy $1,55@1,75. Corn; best qualities active and higher, but low grades dull and lower; mixed in bulk sold at 59@61c, mixed in sacks at 68@70c, yellow 73½@74c, white 76@80c. Oats dull and lower at 66@68c. Rye firm at $1,12@1,13. Barley dull and lower at $1,65 for Minnesota spring. Whisky is slow at $1,00. Groceries dull and unchanged. Provisions very firm and dry salt meats active, but only a moderate business in other articles; heavy Mess Pork sold at $31,50; dry salt shoulders loose 12c, hams 13c, clear rib sides loose 15½c. Bacon—shoulders 13½c, clear rib sides 16¾c, clear sides 17¼c. Sugar cured Hams 20c. Lard held firmly, with small sales of choice at 18c. Receipts—2,700 bbls flour, 16,800 bus wheat, 12,600 bus corn, 8,300 bus oats, 1,300 hogs.

BALTIMORE, May 27.—Flour quiet and steady; western superfine $5,25@5,75, extra $6@7,25, family $8@8,50. Wheat dull and lower; choice valley at 80c. Corn active; large sales of white at 86@87c, and yellow at 90c. Oats dull and weak at 68c for light. Rye dull at $1,40. Mess pork $32. Bacon active and firm; rib sides 17@17¼c, clear sides 17¾@18c, shoulders and hams 19@20c. Lard quiet at 19c. Whisky firm and scarce at $1,10; no sales.

LETTER FROM ST. LOUIS.

The Convention of Missouri Editors—The Stock Yards Project—Future of the State—The Grain Movement.

ST. LOUIS, May 24th, 1869.

Since my last we have had a Publishers' Convention, in which the newspapers of every section of the State were respresented. There was little in their proceedings worth chronicling, since it was rather intended as a social re-union than a business Convention. Col. Switzler, of the Columbia *Statesman*, tried to put in some resolutions, looking to regulation of prices, &c., but they contrived to stave him off. Col. S. has been Democratic candidate for Congress in his District at two successive elections, and defeated both times. He lives in Columbia, the intellectual focus of the State, and is widely known as a public spirited citizen, liberal both in pocket and politics. Missouri has many worse men, even among her Radicals.

Col. Colman, not long ago a Democratic candidate for Lieutenant Governor, and now editor of an agricultural journal, came within three inches of making an ass of himself in the Convention, by declining the office of President, on the ground that his party hadn't a fair divide. This was the only allusion to politics that was made, and as this objection was squelched by Gen. Shepherd, city editor of the *Democrat*, in about two words it may be said that nothing occurred to mar the harmony of the entire proceedings.

The editors, as a whole. were not a bad set to look at. They publish newspapers chuck-full of advertisements, have plenty to do and are pretty well paid for it, and have the feeling and look of independence that such a state of things naturally engenders. The Missouri editor is too big for a Congressman's breeches pocket. He has a breeches pocket of his own. There are very few papers in the State, to their credit be it said, that even with their bitterest opponents have the reputation of venality. And for good, rugged brains, their editors will compare favorably with those of any State.

Like Whittise's darkey-boy at Atlanta, Missouri, can say, "Tell 'em we're risen'." Rising slowly, with ten thousand mule power holding her down, but rising grandly, like a young Samson, just learning his strength. With immigration and a reasonable development of her mineral and agricultural resources, her future is hard to predict.

The adjourned meeting to consult regarding a Union Stock Yard, finally, on Saturday evening, 22d inst., adopted a resolution to raise $50,000 by subscription and make a beginning. It was stated that while railroad freights on stock from Kansas City to Buffalo were considerably lower by St. Louis than by Quincy, the difference was more than counter-balanced by the expense of transfer here, which is not less than $18 a car load. This is the way St. Louis has heretofore neutralized her natural advantages. A river you can neither approach nor cross is not a good piece of property, except for defensive purposes. While there were no railroads people thought very favorably of rivers, but now-a-days if they can't make the railroads bring them tribute, they must quietly get out of the way or get run over.

The North Missouri Railroad Company, which now has its west branch in good working order to Kansas city, and its main line to somewhere near the Iowa State line, is going to transfer its freight direct to boats without, cartage, and also by transferring cars over the ferry put Hays city in direct communication with eastern markets. This line is managed by enterprising men, who understand what the times require, and the Pennsylvanians who invented it may take just pride in it.

Our papers contain little except of local interest. Half the editorial columns of the *Republican* are given up to real estate agents, and the *Democrat* publishes every thing that is said about the grain movement it can get hold of. Sprague's correspondence isn't a circumstance. The commercial editor is a spiritualist, and some day we may look for communications on the subject from the other world. I was going to say something witty about grain and spirits, but memory of the joke perpetrated in your city, a few days ago, by a worthy divine of the Episcopal Church about "Monongahela," is too much for me. This river, by the way, I learn from Dilke's Greater Britain, is in Ohio. HITTY MAGINN.

IF ANY one wonders at the risks of doing business in these days, especially in cases where business men carry large stocks, let him remember the facts pointedly stated by Elizur Wright, in the Boston *Advertiser* of the 20th. Supposing, says he, the volume of the national paper money to be $700,000,000, in gold value on the 1st of last April it was $532,319,300. Its value on the 1st of May was $519,963,000. On this 20th of May it is only $488,656,000. Thus it depreciated in all our pockets to the amount of $12,356,300 in April, and $31,306,700 more in the first twenty days of May. Forty-three million six hundred and sixty-three thousand dollars in fifty days, was a pretty serious war on the pockets of the people. And the higher the premium on gold may go, under the operations of the speculators, the greater the depreciation of the currency, and the ultimate loss to the country.

THE Latin School of Roxbury, Mass., now annexed to Boston, was established in 1645, and is supported by the income of a fund derived chiefly from the lease of lands devised to it in 1671 by Thomas Bell, of London. The rapid growth of the school during several years past has rendered the income insufficient to meet the expenses, and the city of Boston is asked to appropriate $3,000 per annum to meet the cost of instructing between sixty and seventy-five boys. The present salaries of three teachers amount to $5,500, and the other annual expenses to $700. The income is only $5,000, and the additional $3,000 is to be used to cover the deficiency, make repairs, furnish books of referenee and apparatus, and increase the salaries of valuable teachers. The cost of each pupil, supposing seventy-five scholars in attendance, is therefore $106. The Latin School is free to pupils from any section of the city, and relieves the Boston Latin School.

The Sick and Maimed Soldiers.

Ex-Governor ANDREW G. CURTIN was serenaded by a large number of the citizens of Harrisburg, Penn., on Monday night, and in the course of his remarks in response to the compliment, said;

"Let us stand by our Government—the most beneficent ever given to mankind. Let us remember with satisfaction the great charity under which this old Commonwealth has gathered up the indigent orphans and fed, and clothed, and educated them. The blessing of Heaven must rest upon a people who do so much for suffering humanity. Before I leave you, however, let me say something more. Allow me to say, that with all your charity, this great and wealthy, and prosperous people have done nothing for the soldier. Every maimed soldier who begs for a living is a standing monument of your ingratitude. Every man that went to the front—all were assured that their wives and their children should be maintained in their absence; and living, sick and maimed, they should be maintained as soldiers and not as paupers. That pledge has not been redeemed. I will not be here at the next election, but I ask you to pledge me that you will not vote for any man to represent you that will not take from the public treasury enough to maintain every Pennsylvania soldier who may need it, like a gentleman and a soldier—not like a beggar. The soldier who periled his life to maintain the Republic while you remained at home in ease, and comfort and luxury, deserves the support of the Commonwealth from those who enjoy the fruits of his hard-earned victories."

Washington Items.

The War Department is in doubt as to the possibility of maintaining peace on the plains. Much depends on the rapidity with which the spring supplies are sent forward, and these are on their way by quartermaster's transportation to all the Northern and Northwestern stations.

Motley's instructions do not contemplate any immediate action on the Alabama question, and that they are more general than specific in their character. They contain the usual diplomatic parlance, requiring Mr. Motley to state to Her Majesty's Government, when he is presented, that it is the desire of President Grant to adjust all questions of international difference on a basis that will make the friendly relations of the two countries much stronger.

The statement recently set afloat that the President is not in favor of a tariff of protection to American industry, is without the least foundation in fact. General Grant is thoroughly an American, and there is not a free trader in his Cabinet. Secretary Boutwell was always one of the strongest protectionists in the New England delegation, and Secretary Fish now openly declares that the check to our present extravagant importations by high tariff, is the only means by which the country can be saved from a financial crash that will surely follow, if the balance of trade is kept running against us.

Origin of the Pew System.

One hundred and seventy years ago an elegant Parish Church at Atherstone, England, was, as all houses of worship had been, entirely open and available to all worshipers, but it entered the mind of an elderly lady that she would prefer to know where to sit. It was unpleasant to think that anybody should be placed beside her. She accordingly begged to be allowed to put up a piece of boarding to screen herself from the rest of the world. No sooner did this appear, than another wanted a partition to enable her to enjoy, as her own, some particular spot. Then an ald gentleman thought he would like to have some accommodation reserved for him. This closing in of the church for private purposes gave its interior such an irregular and patchy appearance, that it was presently resolved to pew the whole building; which was accordingly done, a large share of the expense being defrayed by a family well known in the neighborhood. And so this pew system has grown and grown on. until it has become ingrained in English church life.

Pleading Extraordinary.

In a divorce suit pending in the Kenton Circuit Court, the defendant (the husband) recently filed his answer, from which we extract the following paragraph: He charges that during the winter of 1865 and 1866 the father of the plaintiff, like the serpent in the Garden of Eden, crept into the defendant's home, obtained an undue influence over the plaintiff, and by his wiles and deceit sowed discord and dissension between the plaintiff and defendant, and by his diabolical machinations, rendered his home, which had been a paradise, a pandemonium; that, having established his domicil in the house of defendant, against his will and contrary to his remonstrance, fastened himself upon him like the old man of the sea upon the back of Sinbad the sailor, and no effort on his part was sufficient to dislodge him, he asks that this Court refuse to grant a divorce, but to decree that the said father of the plaintiff be abated as a nuisance to the peace and happiness of both plaintiff and defendant.

DOWN on Chloride Flat, says a White Pine paper, there is a miner's cabin built out of chunks of high grade chloride ore, estimated at $2,000 a ton. The house is sixteen feet square, and the rock in its walls, if crushed, would yield about $75,000. The miners who own and occupy this valuable building of course are doing so temporarily, and will have the ore of which it is constructed milled as soon as practicable.

RUSSIA and France, according to the German journals, will soon come into serious collision, in consequence of the condemnation of the French Consul, at Odessa, to a week's imprisonment by the Correctional tribunal of that city. The Consul, as President of the French Benevolent Society, had excluded a Russian from a ball given in Odessa.

SPECIAL NOTICES.

SCHENCK'S PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens into the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivaled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abcesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all billious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparation with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond street, New York, every other Tuesday, and at No. 35 Hanover street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists. my19:151-d&F

CITY AND SUBURBAN.

THE GAZETTE *is furnished in the city the six days of the week for* 15 *cents per week; by mail,* $8 *per annum:* 3 *mos.,* $2.

Money to Loan.—We have $10,000 to loan on first class city property. Brown and Lambie, 114 Fifth avenue.

To Contributor.—We refer our correspondent to last Tuesday's GAZETTE for reason for the non-appearance of his communication.

Reorganization.—A meeting will be held in the Friendship engine house, Allegheny, this evening, for the purpose of reorganizing the Company.

Paid the Penalty.—John Formhalz, charged with selling liquor on Sunday, admitted the charge before the Mayor, yesterday, and paid the penalty of fifty dollars.

Committed.—"Loafer" Little, charged with burglary before Justice Heisel, after a hearing yesterday, was committed to jail, in default of five hundred dollars bail, to answer the charge at Court.

Flag Presentation.—This evening, at seven and a half o'clock, a handsome flag will be presented to Post 151, G. A. R., the gift of the ladies of the South Side. The presentation will take place in the Town Hall, Birmingham.

Experience.—Patrick Best attended a ball Wednesday night and feeling the effects of numerous potations of benzine, amused himself by knocking a man down who was passing out of a door with a lady. The Mayor did not approve of this innocent (?) amusement, and Pat was arrested and fined twenty-five dollars for his fun. Expensive rather.

U. S. CUSTOM HOUSE,
PORT OF PITTSBURGH,
SURVEYOR'S OFFICE, May 27, 1869.

By authority of Hon. George S. Boutwell, Secretary of the Treasury, this office will be closed on "Decoration Day," the 29th inst.
THOMAS STEEL,
Surveyor of Customs.

Wanted—Situation.—By a young man as book-keeper or assistant book-keeper, good penman, and has had several years experience in store and bank. Can furnish good reference and security, if required. Address box A GAZETTE office, or call at the GAZETTE Counting Room.

Discharged.—Samuel Butler, a colored man, was arrested yesterday, on a charge of disorderly conduct, preferred by F. W. Cork, clerk at the Robinson House. It was alleged that Butler had broken open the door of one of the bed rooms in the hotel. There was no evidence whatever to sustain the charge, and Butler was *discharged upon payment of costs.*

We are requested to call the attention of all persons selling strawberries in market to be careful and see that their boxes hold good measure. The law is very strict, and Mr. H. B. Lyons Sealer of Weights and Measures, is determined to rigidly enforce it. Last year hundreds of boxes were condemned. A word to the wise is sufficient.

Park Trespassers.—Yesterday afternoon officer Nixon, of Allegheny, arrested three boys for trampling on the flower beds in the Park. Later in the day he also arrested a young man for the same offense. The parties were each compelled to pay a fine of five dollars, which seems rather light. If the Park is to be kept in proper order, the severest penalties should be inflicted upon trespassers.

A Noisy Fifer.—Daniel Phifer, residing in the Third ward, Allegheny, under the influence of stimulants, on Wednesday, managed to annoy his neighbors very considerably by his demeanor. He seemed very anxious to fight, but for some reason could find no opponent, except a policeman, who conveyed him to the lock-up. Yesterday morning he paid a fine of five dollars for the previous evening's performance.

Sacred Concert.—We learn that Mr. Phillip Phillips, the celebrated vocalist, will, some evening next week, give one of his grand concerts at the First Methodist Church, Fifth avenue. Mr. Phillips is without question, one of the finest singers of church music we have ever listened to, and those who have heard him, will not fail to avail themselves of an opportunity to do so again. Our readers will be duly notified of the time of holding the concert.

Non-Intervention.—The Mayor desires to impress upon the minds of "roughs," and all others concerned, that the doctrine of non-intervention, so far as it relates to the intervention by citizens with officers while in the discharge of their official duties, will be strictly enforced, and for this purpose he yesterday imposed a fine of twenty-five dollars and costs on Leopold Hart, who, it appears, attempted to rescue a prisoner from an officer who had made the arrest.

East Liberty Concert.—The residents of East Liberty will learn with pleasure that Mr. Tetedoux intends to give, on Thursday next, 3d of June, a grand vocal concert at Liberty Hall. Some of his best pupils, that is to say some of the best talented of Pittsburgh, have volunteered their assistance. A striking feature of the programme will be the introduction of four pieces of the "Messe Solennelle, the last work of the great Rossini, who died in January. We need not recommend Mr. T. and his excellent singers to our readers. Their past successes are household words. The concert will be a most interesting occasion.

Pleasing Entertainment.—Professor W. B. Slack will give a second concert, this evening, in the Hall of the (old) Third Ward School building, Grant street. The best singers from the Oakland, South, Moorhead, Franklin and Forbes Schools, will take part in the performances. As a test of the ability and success of each school, different pieces will be sung by each alone. Reading by Prof. Evans, and singing by the Allegheny Quartette Club will vary the exercises. A fine violinist and double bass player have been engaged. The piano used is from the well known establishment of H. Kleber & Bro. Let the house be filled.

Allegheny Library Association.—The annual meeting of the Allegheny Library Association was held last evening in the Library room for the purpose of nominating a committee to prepare the nominations for officers for the ensuing year. H. Phipps, Jr., called the meeting to order, and A. Leggate, Esq., was appointed to fill the chair. The following were named as the committee: John Brown, Jr., James Lockhart, F. L. Blair, S. P. Harbison and J. L. Rodgers. Addresses were made by Messrs. Harbison, Blair, Phipp, Leggate and others. The election will take place in about two weeks—the day to be decided by the committee.

THE COURTS.

District Court—Judge Hampton.

THURSDAY, May 27.—Heastings vs. McGee. Action on a contract to recover damages. Defendant sold plaintiff a horse, which he warranted to be sound, and it is alleged by plaintiff that said horse was diseased and had to be shot. Verdict for plaintiff in the sum of $103,50, subject to the opinion of the Court on a question of law reserved.

Peter Kiehl et al. vs. Michael Karnes. Action in replevin to recover a machine for making crackers. Defendant was adjudged a bankrupt in 1868, and it is alleged by plaintiff that he purchased the machine from defendant, which was in defendnat's hands at the time he was adjudged a bankrupt. Verdict for plaintiff in six cents damages and cost of suit.

Catharine Rumpff vs. Isaac Vichenstein. Action to recover for maintenance. At March term '66, an action in divorce was pending in the Common Pleas Court on the part of the plaintiff in this case, who was then the wife of Peter Wilbert, the petition having been presented by the said Peter Wilbert. Previous to the time of the final decree being granted, Vichenstein, the defendant in this case proposed marriage and was accepted, and the parties were married by Alderman Johns on the 25th of March, and the decree was not granted until the 26th. Vichenstein then proposed that she turn over to him all her personal effects, and she accordingly sold her house, a small hotel on Third avenue, disposed of her personal property and turned over the proceeds, about $2,000, to defendant. This action was brought to recover the money, and also for maintenance from the date of marriage up to the time of bringing the suit. The case is on trial.

The Market Question.

MESSRS. EDITORS: In yesterday's issue I saw an article from a "citizen," complaining of grocery keepers buying vegetables in the market to sell again, and wound up by asking "what is to be done while the people suffer?" Now, I think that if "Citizen" would examine the matter he would find that the people do *not* suffer, but, instead, are greatly benefitted by grocery keepers buying and selling garden vegetables. The people do not find fault with a man for opening a store in their vicinity, and keeping them supplied with everything the market affords, but they *do* find fault when he does not keep them so supplied, and quit patronizing him because he does not make a successful thief of himself to steal vegetables from market. There are greater nuisances in this city than produce dealers and grocery men, and the people would find it out, if these were to all shut up shop. Grocery keepers are not hucksters nor hawkers, and yet are they the only ones who suffer when the law is to be vindicated. Nine-tenths of all the vegetables sold in market are sold by hucksters and not by gardeners, and the people know this, They buy from the gardeners, and the Market Committee rents them stalls to sell in. These very hucksters who are maligned so much are not the monsters they seem. If it were not for them we might starve for early vegetables. It is they who rake the country far and near that we may taste good things earlier than our gardeners can produce them. If it were not for them where could we buy apples and many other things that are a luxury today? The city does an injustice to the people as well as to hucksters in not throwing open the field and letting competition take off the prices. In Chicago and other cities, where markets are not known, dealers do all the business, and the people are not overcharged, because competition regulates the price. A market no doubt is a good thing, but people who buy there generally pay for their whistle. Butter can always be bought just as good and a great deal cheaper at the stores than in market, and this is so of more things than butter. The people (poor sufferers) go there and buy from a woman with mud on her shoes, innocently thinking they get fresh butter, when the fact is muddy shoes never saw the country, and never milked a cow. Butter can be rehashed and made into prints in town.
ANOTHER CITIZEN.

Youthful Rowdies.

The neighborhood at the head of Beaver street, Allegheny, at its intersection with Jefferson, is rapidly gaining an unenviable reputation for the rowdy tendencies of its youthful population. Of late a number of complaints have been lodged at the Mayor's office by residents in the vicinity, who assert that hardly an evening passes without some fresh annoyances in this direction. Several times arrests have been made, but as the prisoners were but children, in years at least, they were dismissed with reprimands. This plan, however, has proven altogether futile, and the Mayor has determined to use harsher measures. Last evening a lady called at the office and entered complaint against several boys, ranging in ages from ten to twelve years. The informant stated they had been the source of great annoyance by climbing upon the fence and throwing stones, poles, dirt and other truck through the windows, and when remonstrated with had replied only with insults and blackguardism. An officer was dispatched to the locality named and succeeded in capturing one of the lads. The Mayor, after severely reprimanding the youthful offender, imposed a fine of three dollars, which was paid by his father.

Warrants are out for the arrest of others, who will be treated in like manner, together with all future offenders, until the annoyances are stopped.

ALLEGHENY COUNCILS.

Regular Semi-Monthly Meeting—Petitions and Communications—Reports of Street Committee and Committee on Poor Farm.

A regular meeting of the Select and Common Councils of Allegheny was held in the Council Chambers, City building, yesterday (Thursday) evening, May 27th 1869, at 7½ o'clock.

Select Council.

Members present, Messrs. Faulkner, Gwinner, Hall, Hartman, Myler, Patterson, J. C., Patterson, A., Phillips, Riddle, Wettach, and President McBrier.

The minutes of the preceeding meeting were read and approved.

COMMUNICATIONS.

Mr. Myler presented a communication from J. B. Smith for the West Pa. R. R. Company, relative to the taking of the old canal for the purpose of widening and extending Rebecca street, protesting against the taking of the canal, as the company needed it for railroad purposes. Referred to the Committee on Surveys.

REMONSTRANCE.

Mr. Phillips presented a remonstrance against the construction of a sewer on Western avenue. Referred to the Committee on Swers.

PETITION.

Mr. McBrier, in the Chair, presented a petition for a twelve inch lateral sewer in Herron alley, from Montgomery avenue to North alley. Referred to the Committee on Sewers.

STREET IMPROVEMENTS.

Mr. Myler, from the Committee on Streets, presented the following report:

Gentlemen: Your Committee on Streets respectfully report as follows:

In reference to the widening of the pavement on the south side of Western avenue, from Marion to Irwin avenue, your Committee are favorable to said improvement, but in their opinion the ground is not sufficiently settled to go on immediately with the work.

In the matter of the petition asking Councils to rescind the ordinance for paving Blossom alley and to prevent the paving of the alley with cobble stones, your Committee report adversely, for the reason that it is contrary to law.

In relation to the remonstrance to a sewer on Lincoln avenue, your Committee, after an examination of the subject, report that the proposed route and plan is the best adapted for the purpose, and again recommend its approval.

In the matter of the petition asking for a change of the established grade on Juniata street, between Sedgwick and Franklin street, your Committee can see no reason for departing from their rule, "not to change established grades unless thoroughly convinced that there is some mistake in the original grade," and accordingly report adversely to granting the prayer of the petitioners.

In relation to empowering the City Engineer to employ a competent person to superintend the construction of sewers and the grading and paving of new streets, your Committee report an ordinance and respectfully ask its adoption.

Your Committee recommend the placing of a sewer drop on Sandusky street, in the vicinity of the Western Pennsylvania Railroad, and report the following:

Resolved, That the City Engineer be and he is hereby authorized to have a sewer drop constructed on Sandusky street, near the Western Penna. R. R., for the purpose of connecting with Canal sewer.

The report was accompanied by ordinances as follows:

For construction of lateral sewer on North avenue; authorizing the repair and extension of culvert on River avenue; creating office of Superintendent of Sewers, &c.; grading and paving the following streets: Page street from Fulton to Manhattan, River avenue from Grant avenue to Chartiers street; also, for grading only Jefferson street from Shield's alley to Monterey street, Sarah street from Union avenue to city line.

The report was accepted aud the resolution adopted.

The ordinance relative to the paving of Ridge street passed to a second reading and was laid over until next meeting.

The ordinance relative to the construction of a lateral sewer on North avenue, from Palo Alto street to Pasture lane was referred back to the Committee.

The ordinance for grading Sarah street in the Second ward passed to a second reading and was laid over under the rules.

The ordinance authorizing the widening and repairing of a culvert on River avenue over Butcher's Run was referred back to the Committee.

The ordinance creating the office of Superintendent of Streets and Sewers, was, on motion of Mr. Riddle, laid over indefinitely.

The ordinances relative to the grading of Jefferson street and grading and paving of Page street, were passed under a suspension of the rules.

UNFINISHED BUSINESS.

Mr. Hall called up the ordinance relative to tapping sewers and moved its adoption.

After considerable discussion and several amendments the ordinance was passed finally, under a suspension of the rules.

An ordinance relative to grading Main, Garden and Market streets was called up and passed finally.

An ordinance authorizing a change in a contract with Bernard Gray for paving was, on motion of Mr. Riddle, laid on the table.

The ordinance for grading Patterson alley was taken up and again laid over.

The report of the Committee on Fire Engines relative to the erection of an engine house in the Second ward, in C. C. referred back to the Committee to report plans and specifications for a two-story building, was taken up and S. C. concurred in the action.

RESIGNATION OF MR. MYLER.

The Chairman read the resignation of Mr. John A. Myler.

Mr. Patterson moved to accept the resignation, as Councils could not well do otherwise, and that the thanks of Council be tendered to Mr. Myler for the faithful and efficient manner in which he had discharged his duties while a member of Councils. Adopted.

Mr. Riddle suggested that it would be appropriate for the gentleman retiring to address Council.

The Chairman stated that Mr. Myler had been so long an active member of Council, and a greater portion of the time Chairman of one of its most important committees, that he regretted to loose his valuable services, and he would be most happy to hear any remarks the gentleman might be prevailed upon to make.

Mr. Myler responded, thanking Councils for the kindness he had received at the hands of the members, after which, in a very feeling and appropriate manner, he briefly referred to his experience as a member of Council, and stated that he left his fellow members with regret.

Mr. Riddle briefly referred to the efficiency of the retiring gentleman.

Hr. Hall also added his testimony to what had been said relative to Mr. Myler, the retiring member.

The President concurred in all that had been said regarding Mr. Myler.

Mr. J. C. Patterson presented a resolution requesting the Mayor to issue his proclamation authorizing the election of a member of Select Council in the Fourth ward to fill the vacancy caused by the resignation of Mr. Myler. Adopted.

Common Council.

President Slack in the chair.

Members present: Messrs. Blair, Comley, Grenet, Hanna, Hastings, Kirkpatrick, Krebbs, Kopp, Long, Megraw, McNeill, Ober, Porter, Reineman, Seidle, Tate, Thompson, Voegtley, Warner and President Slack.

Minutes of the preceding, regular and special meetings read and approved.

PETITIONS, &C.

Mr. Megraw presented a petition for the grading of Quarry street; also, remonstrance against construction of sewer on Anderson street and Stoddard alley. Both papers were referred to Committee on Streets and Sewers.

Mr. Hastings: a remonstrance against grading and paving the first alley above Hemlock street, Third ward. Referred to Committee on Streets and Sewers.

THE SEWERAGE QUESTION AGAIN.

Mr. McNeill offered the following:

Whereas, It appears to be impracticable and inexpedient for the city to build any main sewers under the present sewer law, and

Whereas, It is necessary to have a stone culvert put in Spring Garden avenue as soon as possible, to permit the paving of said avenue; therefore, be it

Resolved, That the Committee on Streets and Sewers be instructed to have the said sewer put under contract as soon as convenient, and to pay the cost of construction, less the frontage, out of the City Treasury, until such time as a proper assessment can be made upon the property benefitted by the same, and the money refunded to the city as soon as such assessment can be collected.

Mr. Voegtly moved to refer the paper to the Finance Committee, to ascertain if the money could be spared from the funds in the hands of the Treasurer. Carried.

Mr. Warner, a remonstrance against changing the grade on Juniata street.

Referred to Committee on Streets and Sewers.

Also, petition for laying of water pipe on Franklin and Juniata streets.

Referred to Committe on Water.

Also, communication from John Sampson, containing a proposition for the sale of a piece of property fronting on the Allegheny river, Sixth ward, for a public landing.

Referred to Committee on Wharves and Landings.

UNOCCUPIED RAILWAY PROPERTY.

Mr. Long offered a resolution calling upon the City Solicitor for an opinion as to the right of the City to appropriate unoccupied railroad property for street purposes. Adopted.

PURCHASE OF THE BOYD FARM.

Mr. McNeill, Chairman of the Committee on Poor Farm, presented the following report:

GENTLEMEN: Your Committee on Poor Farm would respectfully report that they were convened at the instance of the President of the Poor Board, when they were informed that the Directors of the Poor, under the direction of Councils, had purchased the Boyd Farm, containing one hundred and thirty acres, for $63,000, all of which action was approved by your Committee, and your Committee would offer the following resolution, viz:

Resolved, That the action of the Poor Directors and Committee on Poor Farm is hereby approved.

The report was received and the resolution adopted.

In S. C., Mr. Hall stated that two of the directors had purchased the farm against the protest of the other members of the board, and without consulting the Committee on Poor Farm. The farm was not worth the money paid for it, and he also thought there was more land than was required. A farm adjoining the Boyd Farm, of sixty acres, could be purchased for $300 per acre, which would answer the purpose of the city fully as well as well as the Boyd Farm.

Mr. Myler was in favor of concurring with the action of Common Council. He thought the land well worth the money proposed to be paid for it, and it was better adapted to the purposes of a poor farm than any other farm that could be obtained for the same amount of money.

Mr. Riddle opposed the purchase of the farm and thought the price extravagant.

After some further discussion the yeas and nays were called, with the following result:

Nays—Messrs. Faulkner, Gwinner, Hall, Patterson, A., Phillips and Riddle—6.

Yeas—Messrs. Hartman, Myler, Pattersoon, J. C., and Wettach.—4.

S. C. non-concurred.

ORDINANCES CONSIDERED.

The following ordinances were called up for final action:

One relative to the storing of oil within the city limits.

Mr. Long moved its re-commitment to the committee on ordinances for revision. Carried.

One relative to running at large of horses, cows, &c., in the city. Passed finally.

One relative to gates and fences across railroad tracks in the city. Referred back to the committee for revision.

One relative to the construction of a sewer on Spring Garden avenue. Laid over until next meeting.

One for the grading and paving of Gerst alley. Passed finally.

One relative to the sewer on Lincoln avenue and Rope alley, to connect with the Western avenue sewer.

Action of S. C. non-concurred in and the ordinance laid over.

One relative to the construction of a sewer on Anderson street and Stoddard alley. Laid on the table.

One relative to the construction of a sewer on Western avenue. Laid over.

One relative to grading and paving of First alley, north of Hemlock street. Laid on the table.

SEWERAGE TAX.

One relative to levying a tax for the construction of main sewers.

Mr. Megraw opposed the passage of the ordinance on the ground that it did not conform to the act of Assembly.

Mr. Warner contended that the law was a very good one, as it compelled those who were benefitted the most, to pay the greatest portion of the expense of construction.

Mr. McNeill said the law was passed too hastily, and if he had been correctly informed, would not stand in the Courts. He favored laying the matter over for the present until a new and more just law could be prepared.

Mr. Hanna thought the law had been long enough before Councils for consideration, and he was in favor of acting upon it without further delay. He only desired a good law and this came up to the requirements.

After some further discussion a motion was made to concur with the action of Select Council in adopting the ordinance.

The yeas and nays were called, resulting in ten yeas and ten nays.

So the motion was lost and the ordinance laid over.

CODIFICATION CITY ORDINANCES.

The resolutions instructing the Committee on Ordinances to report as to the propriety of re-codifying the city ordinances was called up, and the action of Select Council in adopting it, concurred in.

The action of Select Council, in receiving the report of the Committee on Railroads, was concurred in.

WHITE OAK ALLEY SEWER.

The plan for a sewer on White Oak alley was called up.

Mr. Hastings moved a reconsideration of the vote by which the plan was laid over at a previous meeting. Carried.

Mr. Megraw moved to lay the plan on the table. Carried.

In all business not otherwise noted, S. C. concurred.

Adjourned at two o'clock under the rules.

Political—The Sheriffalty.

EDITORS MIRROR: Knowing that your excellent journal is not devoted to the agitation of matters politically, nevertheless, I take the liberty of giving my preference, through your columns, upon a subject now receiving much attention from our citizens. I refer to the effort to secure the nomination for the highly responsible office of Sheriff of Allegheny county. As you are aware, there seems to be no lack of gentlemen willing to serve in that capacity, and, at best, the nature of the business performed by the Sheriff, in his official capacity, is not always of a pleasant nature to the one requiring his attention; but that business can be performed by that officer in such a manner as to divest it of much of the misery and wretchedness which usually attend it. It is, then, a matter of the utmost importance that in our selection we should be guarded, and endeavor to secure a gentleman for that office who has the requisite ability to discharge its duties as necessity requires and humanity should dictate. There are many good men named in connection with this office, but, after canvassing their various claims, I am free to confess that no one man possesses, to a greater degree, all the necessary qualifications desirable to that office than does William A. Herron. As an officer and a man, he has given many practical illustrations of his ability and fitness for public position. As a citizen his character is irreproachable, and he ever sustains the highest position for honesty and integrity. As a member of the Republican party he has ever been active and liberal in contributing both time and money for its success, and in the last campaign labored in season and out of season for the good of the party. Qualified in every partieular—possessing every requisite of experience, capacity and ability, together with energy and application to business, we know of no man who would prove so acceptable to the great mass of the people as Mr. Herron. Those who desire to have a good and capable officer, and one possessing kindness of heart and urbanity of manners, always genial and affable in conversation and business, should labor at the primary meetings in his behalf.
SECOND WARD.

—*Weekly Mirror.*

Completed.

The repairs in the pavement on Second avenue, which we stated a few days since were being made, have been completed, and the street is now apparently in good condition. How long it will remain so is to be determined, but we are of the opinion that in less than two years' time the street will be in as bad if not worse condition than it was before the repairs were made. That the repairing has been well done there can be no question. But the travel over the street is of such a character, being principally wagons loaded with heavy castings, and others hauling iron from and metal to the various works on the South Side of the river, that it is almost impossible to construct a cobble stone pavement which will not give way under the immense weight and constant travel. In addition to this, that portion of the street between the spring or fountain and the Birmingham bridge is never dry any length of time, in consequence of the water from the spring overflowing it, which is caused by the gutter being filled with dirt falling from the hill side.

Grand Tournament and Festival.

We learn that the Knights of the White Cross, an association of colored men of this city, propose holding a grand Tournament at Union Park, Allegheny City, Thursday, June 3d, and a Festival at Lafayette Hall in the evening. The principal features at the Festival will be the Crowning of the "Queen of Love and Beauty" and three Maids of Honor, the presentation of a gold-headed cane to the Mayor receiving the highest number of votes, and a gold watch to the most popular head waiter in the city, the competitors for which are Adam Watkins, George Ware and James Smith. The Association referred to is composed of the most respectable colored men in the two cities, and the affair will be conducted in grand style. 2

Sent to the Refuge.

We mentioned, in yesterday's paper, the names of five boys who had been arrested in Allegheny, on suspicion of being members of a gang of youthful thieves who have been operating in the city for several months. Subsequently the lads had a hearing before Alderman Bolster, which resulted in the commitment of Andrew Rutinger, a ringleader, to the House of Refuge. This lad has heretofore been an inmate of the institute, but was released on parole, his conduct, while a prisoner, being commendable. The others were held for trial, on the charges preferred, in the sum of one thousand dollars each. The policemen are on the lookout for other members of the gang.

Novel Enterprise.

We notice samples of a new article of spool cotton called "Sterling £," being left with every family. These samples are for trial. "No charge." The house of A. T. Stewart & Co., is taking this method of introducing this article of thread, confident in the belief that it is the best, or, as we heard it expressed, "strong as wire, yet soft as silk;" emphatic language, but only comparative. Go to Horne & Co's., Macrum & Glyde's, Macrum & Carlisle's, T. H. Eaton's, W. W. Moorhead's, or any principal store, and ask for a sample of the "Sterling L" spool cotton.

The Shrievalty.

We take pleasure in calling the attention of our readers to the card of Mr. Frank Duff, candidate for the Shrievalty, subject to the decision of the Union Republican County Convention, which meets on June 1st next. Mr. Duff is a man who has always been a consistent Republican and an active politician in his district (Ohio township). He is the only candidate from the country districts, and is well qualified for the position. If elected he will fill the office and discharge its duties to the entire satisfaction of the people.

Result of a Picnic.

James Ault made information before Alderman Humbert, yesterday, against Thomas Sheridan, Pat Foley, Daniel Ryan and Thomas Russel for selling liquor without license and to minors. The accused were managers of a picnic held at Deitrich's Grove, near Temperanceville, a few days since, where the violations of the law are alleged to have been committed. The same prosecutor also charged Mr. Deitrich with maintaining a nuisance, in the shape of picnic grounds. The defendants, in both cases, were arrested, waived a hearing, and gave bail for trial.

Economical, Reliable, the Best.

We mean DOOLEY'S BAKING POWDER It is superior to all others in the market. Free from any injurious substances, and so nicely compounded that the contents of each box will make light, sweet, healthy biscuits, rolls, pastry, &c., with uniform success. Only two teaspoonfuls to a quart of flour is necessary, while those of ordinary manufacture require from one-third to a half more. Ask your grocer for Dooley's Chemical Yeast Baking Powder, and take no other. Try it and be convinced. MWF
